After the End of Art

Contemporary Art and the Pale of History - Updated Edition *Princeton University Press*

Over a decade ago, Arthur Danto announced that art ended in the sixties. Ever since this declaration, he has been at the forefront of a radical critique of the nature of art in our time. After the End of Art presents Danto's first full-scale reformulation of his original insight, showing how, with the eclipse of abstract expressionism, art has deviated

irrevocably from the narrative course that Vasari helped define for it in the Renaissance. Moreover, he leads the way to a new type of criticism that can help us understand art in a posthistorical age where, for example, an artist can produce a work in the style of Rembrandt to create a visual pun, and where traditional theories cannot explain the difference between Andy Warhol's Brillo Box and the product found in the grocery store. Here we are engaged in a series of insightful and entertaining conversations on the most relevant aesthetic and philosophical issues of art, conducted by an especially acute observer of the art scene today. Originally delivered as the prestigious Mellon Lectures on the Fine Arts, these writings cover art history, pop art,

"people's art," the future role of museums, and the critical contributions of Clement Greenberg--who helped make sense of modernism for viewers over two generations ago through an aesthetics-based criticism. Tracing art history from a mimetic tradition (the idea that art was a progressively more adequate representation of reality) through the modern era of manifestos (when art was defined by the artist's philosophy), Danto shows that it wasn't until the invention of Pop art that the historical understanding of the means and ends of art was nullified. Even modernist art, which tried to break with the past by questioning the ways of producing art, hinged on a narrative. Traditional notions of aesthetics can no longer apply to contemporary art, argues

Danto. Instead he focuses on a philosophy of art criticism that can deal with perhaps the most perplexing feature of contemporary art: that everything is possible.

After the End of Art

Contemporary Art and the Pale of History

Originally delivered as the prestigious Mellon Lectures on the Fine Arts in 1995, *After the End of Art* remains a classic of art criticism and philosophy, and continues to generate heated debate for contending that art ended in the 1960s. Arthur Danto, one of the best-known art critics of his time, presents radical insights into art's irrevocable deviation from its previous course and the decline

of traditional aesthetics. He demonstrates the necessity for a new type of criticism in the face of contemporary art's wide-open possibilities. This Princeton Classics edition includes a new foreword by philosopher Lydia Goehr.

The End of Art

Readings in a Rumor After Hegel

Stanford University Press

Since Hegel, the idea of an end of art has become a staple of aesthetic theory. This book analyzes its role and its rhetoric in Hegel, Nietzsche, Benjamin, Adorno, and Heidegger in order to account for the topic's enduring persistence. In addition to providing a general overview of the main thinkers of post-Idealist German aesthetics, the

book explores the relationship between tradition and modernity. For despite the differences that distinguish one philosopher's end of art from another's, all authors treated here turn the end of art into an occasion to thematize and to reflect on the very thing that modernism cannot or should not be: tradition. As a discourse, the end of art is one of our modern traditions.

The End of Art Theory *Macmillan International Higher Education*

The Return of the Real

Art and Theory at the End of the Century *MIT Press*

In *The Return of the Real* Hal Foster discusses the development of art and

theory since 1960, and reorders the relation between prewar and postwar avant-gardes. Opposed to the assumption that contemporary art is somehow belated, he argues that the avant-garde returns to us from the future, repositioned by innovative practice in the present. And he poses this retroactive model of art and theory against the reactionary undoing of progressive culture that is pervasive today. After the models of art-as-text in the 1970s and art-as-simulacrum in the 1980s, Foster suggests that we are now witness to a return to the real—to art and theory grounded in the materiality of actual bodies and social sites. If *The Return of the Real* begins with a new narrative of the historical avant-gard, it concludes with an original reading of this

contemporary situation—and what it portends for future practices of art and theory, culture and politics.

Arthur Danto's Philosophy of Art: Essays *BRILL*

From the nineteen-eighties on, Arthur Danto was the most significant art critic and philosopher of art in world. This book provides a comprehensive, systematic view of his philosophy and criticism including his views in relation to not only painting and sculpture but to cinema and dance.

The Beginning After The End

Ascension, Book 8 *TurtleMe*

I had to accept that I wasn't just Arthur Leywin anymore, and that I could no

longer be limited by the circumstances of my birth. If I was going to escape, if I was going to go toe-to-toe with the most powerful beings in this world, I needed to push myself to my utmost limit...and then I needed to push even further. After nearly dying as a victim of his own strength, Arthur Leywin wakes to find himself far from the continent where he was born for the second time. Alone, broken, and with no way to tell his family he's alive, Arthur must rebuild his strength to survive. As he ascends through an ancient dungeon filled with hostile beasts and devious trials, he discovers an ancient, absolute power - a power that will either ruin him or take him to new heights. But the dungeon won't give up its knowledge easily. Before he can plunder its depths, Arthur

must learn to untangle the threads of fate. He must band together with the unlikelyst of allies if he hopes to escape with his life.

End of History and the Last Man
Simon and Schuster

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

Arthur Danto and the End of Art

Cambridge Scholars Publishing

To get a comprehensive understanding of the core concept of “the end of art”, this book analyses the intellectual trajectory of Arthur Danto, highlighting his successive achievements in philosophy of action, philosophy of history and philosophy of art. If, as Danto says, everything is extensively associated with everything else, it is impossible to avoid putting the philosophy of art in relation with his whole philosophical system.

An Artist of the Floating World *Vintage*

From the winner of the Nobel Prize in Literature and author of the Booker Prize-winning novel *The Remains of the Day* In the face of the misery in his homeland, the artist Masuji Ono was unwilling to devote his art solely to the celebration of physical beauty. Instead, he put his work in the service of the imperialist movement that led Japan into World War II. Now, as the mature Ono struggles through the aftermath of that war, his memories of his youth and of the "floating world"—the nocturnal world

of pleasure, entertainment, and drink—offer him both escape and redemption, even as they punish him for betraying his early promise. Indicted by society for its defeat and reviled for his past aesthetics, he relives the passage through his personal history that makes him both a hero and a coward but, above all, a human being.

Arts of Living on a Damaged Planet

Ghosts and Monsters of the Anthropocene *U of Minnesota Press*

Living on a damaged planet challenges who we are and where we live. This

timely anthology calls on twenty eminent humanists and scientists to revitalize curiosity, observation, and transdisciplinary conversation about life on earth. As human-induced environmental change threatens multispecies livability, *Arts of Living on a Damaged Planet* puts forward a bold proposal: entangled histories, situated narratives, and thick descriptions offer urgent “arts of living.” Included are essays by scholars in anthropology, ecology, science studies, art, literature, and bioinformatics who posit critical and creative tools for collaborative survival in a more-than-human Anthropocene. The essays are organized around two key figures that also serve as the publication’s two openings: Ghosts, or landscapes haunted by the violences of

modernity; and Monsters, or interspecies and intraspecies sociality. Ghosts and Monsters are tentacular, windy, and arboreal arts that invite readers to encounter ants, lichen, rocks, electrons, flying foxes, salmon, chestnut trees, mud volcanoes, border zones, graves, radioactive waste—in short, the wonders and terrors of an unintended epoch. What Art Is *Yale University Press*

One of America's most celebrated art critics offers a lively meditation on the nature of art.

Art and Cosmotechnics *U of Minnesota Press*

In light of current discourses on AI and robotics, what do the various experiences of art contribute to the rethinking of technology today? Art and

Cosmotechnics addresses the challenge of technology to the existence of art and traditional thought, especially in light of current discourses on artificial intelligence and robotics. It carries out an attempt on the cosmotechnics of Chinese landscape painting in order to address this question, and further asks: What is the significance of shanshui (mountain and water) in face of the new challenges brought about by the current technological transformation? Thinking art and cosmotechnics together is an attempt to look into the varieties of experiences of art and to ask what these experiences might contribute to the rethinking of technology today.

Nature, the End of Art

Environmental Landscapes *Gli Ori Pub*

"This generously illustrated volume documents Sonfist's formidable body of work that continues to date. Featured are photographs and drawings that stand as independent works of art in their own right and also relate to the environmental landscapes for which he is best known. In addition to an informative interview by Robert Rosenblum and essays by a number of other art experts, the book also includes comments by the artist and quotes from a variety of sources that have inspired him. All these elements conjoin to reveal the fascinating story of this innovative artist who prefigured environmental art." -Inside back cover.

What Is It All but Luminous

Notes from an Underground Man *Vintage*

"Poetic musings on a life well-lived—one that is still moving forward, always creating, always luminous. This isn't your typical autobiography. Garfunkel's history is told in flowing prose, bounding from present to past, far from a linear rags-to-riches story." —Bookreporter "It's hard to imagine any single word that would accurately describe this book . . . an entertaining volume that's more fun to read than a conventional memoir might have been." —The Wall Street Journal "A charming book of prose and poetry printed in a digitalized version of his handwriting . . . witty, candid, and wildly imaginative . . . A highly intelligent

man trying to make sense of his extraordinary life." —Associated Press From the golden-haired, curly-headed half of Simon & Garfunkel, a memoir (of sorts)—moving, lyrical impressions, interspersed throughout a narrative, punctuated by poetry, musings, lists of resonant books loved and admired, revealing a life and the making of a musician, that show us, as well, the evolution of a man, a portrait of a life-long friendship and of a collaboration that became the most successful singing duo in the roiling age that embraced, and was defined by, their pathfinding folk-rock music. In *What Is It All but Luminous*, Art Garfunkel writes about growing up in the 1940s and '50s (son of a traveling salesman, listening as his father played Enrico Caruso records), a

middle-class Jewish boy, living in a redbrick semi-attached house on Jewel Avenue in Kew Gardens, Queens. He writes of meeting Paul Simon, the kid who made Art laugh (they met at their graduation play, *Alice in Wonderland*; Paul was the White Rabbit; Art, the Cheshire Cat). Of their being twelve at the birth of rock'n'roll ("it was rhythm and blues. It was black. I was captured and so was Paul"), of a demo of their song, *Hey Schoolgirl* for seven dollars and the actual record (with Paul's father on bass) going to #40 on the charts. He writes about their becoming Simon & Garfunkel, ruling the pop charts from the age of sixteen, about not being a natural performer but more a thinker, an underground man. He writes of the hit songs; touring; about being an actor

working with directors Mike Nichols (“the greatest of them all”), about choosing music over a PhD in mathematics. And he writes about his long-unfolding split with Paul, and how and why it evolved, and after; learning to perform on his own . . . and about being a husband, a father and much more.

Van Gogh's Finale

Auvers and the Artist's Rise to Fame

Frances Lincoln

A captivating and definitive account of the final days of Van Gogh's life and the incredible story of what followed. Divided into three parts, the book first examines the eventful days from the artists' departure from the asylum in Saint-Remy and arrival in Auvers until

the shooting which brought his life to an end. During this time Van Gogh completed 70 paintings in 70 days. The second part delves deeper into the story of the artist's death, which has intrigued both experts and the public for years, revealing little-known stories and uncovering overlooked accounts. We then follow the story of how Van Gogh subsequently rose from relative obscurity to international renown and ultimately fame as one of the most recognisable and popular artists in the world.

The End of Art *Cambridge University Press*

Donald Kuspit argues here that art is over because it has lost its aesthetic import. Art has been replaced by

"postart," a term invented by Alan Kaprow, as a new visual category that elevates the banal over the enigmatic, the scatological over the sacred, cleverness over creativity. Tracing the demise of aesthetic experience to the works and theory of Marcel Duchamp and Barnett Newman, Kuspit argues that devaluation is inseparable from the entropic character of modern art, and that anti-aesthetic postmodern art is in its final state. In contrast to modern art, which expressed the universal human unconscious, postmodern art degenerates into an expression of narrow ideological interests. In reaction to the emptiness and stagnancy of postart, Kuspit signals the aesthetic and human future that lies with the old masters. *The End of Art* points the way

to the future for the visual arts. Donald Kuspit is Professor of Art History at SUNY Stony Brook. A winner of the Frank Jewett Mather Award for Distinction in Art Criticism, Professor Kuspit is a Contributing Editor at *Artforum*, *Sculpture* and *New Art Examiner*. His most recent book is *The Cult of the Avant-Garde* (Cambridge, 1994).

The Dance of Death

Medallic Art of the First World War

A Capsule Aesthetic

Feminist Materialisms in New Media Art *U of Minnesota Press*

How new media art informed by feminism yields important and original insights about interacting with technologies In *A Capsule Aesthetic*, Kate Mondloch examines how new media installation art intervenes in the fields of technoscience and new materialism, showing how three diverse artists—Pipilotti Rist, Patricia Piccinini, and Mariko Mori—contribute to the

urgent conversation about everyday technology and the ways it constructs our bodies. *A Capsule Aesthetic* establishes the unique insights that feminist theory offers to new media art and new materialisms, offering a fuller picture of human-nonhuman relations. In-depth readings of works by Rist, Piccinini, and Mori explore such questions as the role of the contemporary art museum in our experience of media art, how the human is conceived of by biotechnologies, and how installation art can complicate and enrich contemporary science's understanding of the brain. With vivid, firsthand descriptions of the artworks, Mondloch takes the reader inside immersive installation pieces, showing how they allow us to inhabit challenging

theoretical concepts and nonanthropomorphic perspectives. Striving to think beyond the anthropocentric and fully consider the material world, *A Capsule Aesthetic* brings new approaches to questions surrounding our technology-saturated culture and its proliferation of human-to-nonhuman interfaces.

Beyond the Brillo Box

The Visual Arts in Post-Historical Perspective *Univ of California Press*

Sustainable Utopias

The Art and Politics of Hope in Germany *Harvard University Press*

To reclaim a sense of hope for the future, German activists in the late twentieth century engaged ordinary citizens in innovative projects that resisted alienation and disenfranchisement. By most accounts, the twentieth century was not kind to utopian thought. The violence of two world wars, Cold War anxieties, and a widespread sense of crisis after the 1973 global oil shock appeared to doom dreams of a better world. The eventual victory of capitalism and, seemingly, liberal democracy relieved some fears but exchanged them for complacency and cynicism. Not, however, in West Germany. Jennifer Allen showcases grassroots activism of the 1980s and

1990s that envisioned a radically different society based on community-centered politics—A society in which the democratization of culture and power ameliorated alienation and resisted the impotence of end-of-history narratives. Berlin's History Workshop liberated research from university confines by providing opportunities for ordinary people to write and debate the story of the nation. The Green Party made the politics of direct democracy central to its program. Artists changed the way people viewed and acted in public spaces by installing objects in unexpected environments, including the Stolpersteine: paving stones, embedded in residential sidewalks, bearing the names of Nazi victims. These activists went beyond just trafficking in ideas.

They forged new infrastructures, spaces, and behaviors that gave everyday people real agency in their communities. Undergirding this activism was the environmentalist concept of sustainability, which demanded that any alternative to existing society be both enduring and adaptable. A rigorous but inspiring tale of hope in action, *Sustainable Utopias* makes the case that it is still worth believing in human creativity and the labor of citizenship.

Art and the End of Apartheid *U of Minnesota Press*

Black South African artists have typically had their work labeled "African art" or "township art," qualifiers that, when contrasted with simply "modernist art," have been used to marginalize their

work both in South Africa and internationally. This is the first book to fully explore cosmopolitan modern art by black South Africans under apartheid.

In AI We Trust

Power, Illusion and Control of Predictive Algorithms *John Wiley & Sons*

One of the most persistent concerns about the future is whether it will be dominated by the predictive algorithms of AI – and, if so, what this will mean for our behaviour, for our institutions and for what it means to be human. AI changes our experience of time and the future and challenges our identities, yet we are blinded by its efficiency and fail to understand how it affects us. At the

heart of our trust in AI lies a paradox: we leverage AI to increase our control over the future and uncertainty, while at the same time the performativity of AI, the power it has to make us act in the ways it predicts, reduces our agency over the future. This happens when we forget that that we humans have created the digital technologies to which we attribute agency. These developments also challenge the narrative of progress, which played such a central role in modernity and is based on the hubris of total control. We are now moving into an era where this control is limited as AI monitors our actions, posing the threat of surveillance, but also offering the opportunity to reappropriate control and transform it into care. As we try to adjust to a world in which algorithms, robots

and avatars play an ever-increasing role, we need to understand better the limitations of AI and how their predictions affect our agency, while at the same time having the courage to embrace the uncertainty of the future.

An Imaginary Racism

Islamophobia and Guilt *John Wiley & Sons*

'Islamophobia' is a term that has existed since the nineteenth century. But in recent decades, argues Pascal Bruckner in his controversial new book, it has become a weapon used to silence criticism of Islam. The term allows those who brandish it in the name of Islam to 'freeze' the latter, making reform difficult. Whereas Christianity and

Judaism have been rejuvenated over the centuries by external criticism, Islam has been shielded from critical examination and has remained impervious to change. This tendency is exacerbated by the hypocrisy of those Western defenders of Islam who, in the name of the principles of the Enlightenment, seek to muzzle its critics while at the same time demanding the right to chastise and criticize other religions. These developments, argues Bruckner, are counter-productive for Western democracies as they struggle with the twin challenges of immigration and terrorism. The return of religion in those democracies must not be equated with the defence of fanaticism, and the right to religious freedom must go hand in hand with freedom of expression, an

openness to criticism, and a rejection of all forms of extremism. There are already more than enough forms of racism; there is no need to imagine more. While all violence directed against Muslims is to be strongly condemned and punished, defining these acts as 'Islamophobic' rather than criminal does more to damage Islam and weaken the position of Muslims than to strengthen them.

Art in Progress

Embodied Meanings

Critical Essays and Aesthetic Meditations *Farrar, Straus and Giroux*

The Testaments

A Novel *Anchor*

NEW YORK TIMES BESTSELLER • WINNER OF THE BOOKER PRIZE • A modern masterpiece that "reminds us of the power of truth in the face of evil" (People)—and can be read on its own or as a sequel to Margaret Atwood's classic, *The Handmaid's Tale*. "Atwood's powers are on full display" (Los Angeles Times) in this deeply compelling Booker Prize-winning novel, now updated with additional content that explores the historical sources, ideas, and material

that inspired Atwood. More than fifteen years after the events of *The Handmaid's Tale*, the theocratic regime of the Republic of Gilead maintains its grip on power, but there are signs it is beginning to rot from within. At this crucial moment, the lives of three radically different women converge, with potentially explosive results. Two have grown up as part of the first generation to come of age in the new order. The testimonies of these two young women are joined by a third: Aunt Lydia. Her complex past and uncertain future unfold in surprising and pivotal ways. With *The Testaments*, Margaret Atwood opens up the innermost workings of Gilead, as each woman is forced to come to terms with who she is, and how far she will go for what she believes.

The Memoirs of Madame Vigée Lebrun

Oryx and Crake *Vintage Canada*

A stunning and provocative new novel by the internationally celebrated author of *The Blind Assassin*, winner of the Booker Prize. Margaret Atwood's new novel is so utterly compelling, so prescient, so relevant, so terrifyingly-all-too-likely-to-be-true, that readers may find their view of the world forever changed after reading it. This is Margaret Atwood at the absolute peak of her powers. For readers of *Oryx and Crake*, nothing will ever look the same again. The narrator of Atwood's riveting novel calls himself Snowman. When the story opens, he is sleeping in a tree, wearing an old bedsheet, mourning the loss of his

beloved Oryx and his best friend Crake, and slowly starving to death. He searches for supplies in a wasteland where insects proliferate and pigoons and wolvogs ravage the pleeblands, where ordinary people once lived, and the Compounds that sheltered the extraordinary. As he tries to piece together what has taken place, the narrative shifts to decades earlier. How did everything fall apart so quickly? Why is he left with nothing but his haunting memories? Alone except for the green-eyed Children of Crake, who think of him as a kind of monster, he explores the answers to these questions in the double journey he takes - into his own past, and back to Crake's high-tech bubble-dome, where the Paradise Project unfolded and the world came to grief. With

brehtaking command of her shocking material, and with her customary sharp wit and dark humour, Atwood projects us into an outlandish yet wholly believable realm populated by characters who will continue to inhabit our dreams long after the last chapter.

Art Savvy

Your Private Eye, Understanding Public Art in 5 Easy Pieces *Createspace Independent Publishing Platform*

Art Savvy is a systematic approach to understanding art. It gives you methods

to assess a design and really see what the artist was doing. Unlike chaotic art writings, terms are clearly defined, categorized, organized and illustrated. It is designed to answer questions like: What things will allow me to understand art? What are the basic elements? What is concept art? Can you "read" a work of abstract art? Visual literacy is the ability to interpret, negotiate, and make meaning from information presented in art work. Art Savvy gives you this. Defining Terms: Often art terms are not clearly defined, are used interchangeably or get mixed up with other types of analysis. For a thorough exploration of all aspects of art, photos of great works are referenced with color keyed notations to illustrate the 5 easy pieces: 1. Design Elements- Visual

grammar, line, shape, form, mass etc. - definitions & how to see them. 2. Organization Principles- How elements are arranged and how this effects the concept. 3. Style- Relation to other groups of work and formulas for design. 4. Technique- How methods and materials are used to impact the concept. 5. Concept- What this piece about. What major themes and elements were used. Assessment techniques in each section of Art Savvy will train your eye to always see these 5 aspects of any artwork. It is not attempting judgments of relevance, philosophy, spiritual meanings and other ethereal aspects that a work may convey. This text poses the question: "What is the basic concept here?" but sticks to pure analysis and leaves all judgment to you and the

experts. This field guide is a mini textbook on design principles that will let you understand art!
