Do I Make Myself Clear?

Why Writing Well Matters *Little, Brown*

*New York Times Bestseller * One of NPR's Best Books of 2017 A wise and entertaining guide to writing English the proper way by one of the greatest newspaper editors of our time. Harry Evans has edited everything from the urgent files of battlefield reporters to the

complex thought processes of Henry Kissinger. He's even been knighted for his services to journalism. In DO I MAKE MYSELF CLEAR?, he brings his indispensable insight to us all in his definite guide to writing well. The right words are oxygen to our ideas, but the digital era, with all of its TTYL, LMK, and WTF, has been cutting off that oxygen flow. The compulsion to be precise has vanished from our culture, and in writing of every kind we see a trend towards more--more speed and more information but far less clarity. Evans provides practical examples of how editing and rewriting can make for better communication, even in the digital age. DO I MAKE MYSELF CLEAR? is an essential text, and one that will provide every writer an editor at his shoulder.

The Brand Called You *Bloomsbury*

Publishing

There is no one else in the world like you. Your personal brand has been registered in your name and patented with your persona even though there may be hundreds of people carrying the same name. Creating, building, and developing your personal brand is entirely in your own hands. Conversely, destroying or diminishing your brand is also only in your own hands. Your brand is the essence of your own unique story. The key to this is reaching deep inside yourself and pulling out the authentic, the unique 'you', from within your own self. What we do with our own brand name could be the difference between being very successful and not so successful. This is as true for personal branding as it is for business branding.

The Brand Called You outlines how critical it is for each one of us to understand the power and vulnerabilities of our brand and invest wisely and consistently in our persona and our name. Remember, the only legacy you will leave behind in the world is your name.

The Brand Mapping Strategy

Design, Build, and Accelerate Your Brand *Entrepreneur Press*

A fundamental paradigm shift has occurred in marketing and branding. Today the most successful CEOs, executives, entrepreneurs and enterprises set their sites on developing a long-term platform instead of a short-term strategy that supports and builds

buzz for their personal or business brand. That's really the key to the new business mindset — the recognition that branding and marketing are an ongoing, steady stream of small efforts, not a series of gigantic pushes. Social media, blogging and other business development activities — both online and off — are about the persistent, ongoing process of building a platform, creating credibility and increasing the number of people that you funnel into your potential client and network pipeline. Converting those people into clients or fans may take a month, a year or two years, but the new mindset leads you to strategies that will keep that pipeline full. In short, you need to start a bunch of small fires to keep your brand burning hot. How can today's CEOs,

executives and entrepreneurs keep these fires going and powerfully get their messages across, motivate others to action and be authentic — all while simultaneously shepherding initiatives from creation to implementation in high-demand markets? CEO, executive and team branding are key factors that enable effective leaders to achieve peak performance, gain greater influence in their industries and generate increased engagement within their companies. By creating a brand (business or personal) by design instead of default, leaders and companies bring their brand promise into every interaction across the board. A personal, team or business brand is not just a single statement or a clever quip but a multilayered, congruent narrative told across multiple channels

— online and off — within the organization and to the business community at large. The power is in knowing how to tell the story. The book will introduce CEOs and executives in Fortune 500 companies and entrepreneurs in SMBs to the SMG Brand Mapping Process®, a process that will guide them in creating personal, team and business brands that work in harmony and parallel with each other.
