Saving, Investment, and the Financial System

Saving money is the process of putting cold, hard cash aside and parking it in extremely safe, and liquid (meaning they can be sold or accessed in a very short amount of

time, at most a few days) securities or accounts. 1 This can include checking accounts and savings accounts secured by the FDIC. This can include United States Treasury bills.

Saving vs. Investing Money

Remember, as we say above, if you've little savings and are heavily indebted, gambling on stock markets could be bad for your financial health. If you've built up a nest-egg, though, and are fed up with low savings rates, putting a chunk of it (that you don't need to rely on for living expenses) on the stock market could be a decent way to try to earn bigger returns.

Savings - All Guides

-

MoneySavingExpert

Saving usually means putting your money into cash products, such as a savings account in a bank or building society.

Investing - is taking some of your money and trying to make it grow by buying things you think will increase

in value. For example, you might invest in stocks, property, or shares in a fund.

Should I save or invest my money? - Money Advice Service

It's important to understand the difference between saving and investing as a start point. Saving - You put money away in complete safety, and get it all back plus interest. Investing - You risk losing some of your cash for the chance it'll grow quicker. Whether you should be saving or investing depends on your circumstances.

Best place to save money: Your options - Money Saving Expert

A savings account is a bank or building

society account that pays interest on your money. It's a good way to make your cash work harder than it might do in a current account, Some current accounts pay attractive

rates of interest but usually have conditions attached, such as having to pay in a certain amount each month and running direct debits.
