Cooperative Learning and Geometry: High School Activities ...

Cooperative learning is a learning and teaching style that contrasts greatly with traditional direct instruction. In direct instruction, the teacher completes a math example for the class, then works with the class, and finally the students try it on their own. With cooperative learning, the students start the problem and work it out together.

Kagan Cooperative Learning and Geometry High School ...

Cooperative learning is an educational approach which aims to organize classroom activities into academic and social learning experiences. There is much more to cooperative learning than merely arranging students into groups, and it has been described as "structuring positive interdependence." Students must work in groups to complete tasks collectively toward academic goals. Unlike individual learning, which can be competitive in nature, students learning cooperatively can capitalize on one another
