Cancer-related inflammation affects many aspects of malignancy, including the proliferation and survival of malignant cells, angiogenesis, tumor metastasis, and tumor response to chemotherapeutic drugs and hormones.

Moreover, epidemiologic studies and meta-analysis have shown that prolonged use of non-steroid anti-inflammatory (NSAID) drugs reduces the risk of several solid tumor including lung cancer.

The role of inflammation in lung cancer - PubMed

Macrophages, Inflammation, and Lung Cancer Lung

cancer is the leading cause of cancer mortality worldwide, and at only 18%, it has one of the lowest 5-year survival rates of all malignancies. With its highly complex mutational landscape, treatment strategies against lung cancer have proved largely ineffective. However with the recent success ...

Macrophages, Inflammation, and Lung Cancer

In recent years there have been various discoveries connecting inflammation and lung cancer and clearly there is growing interest in this area of cancer research. The link between unresolved inflammation and cancer has been well established with

estimates that 15% of cancer deaths are inflammation-related. Evidence for this link includes the following:

- a) some inflammatory diseases are associated with increased risk of cancer development;
- b) inflammatory mediators are present surrounding ...

Inflammation and Lung Cancer | Steven M. Dubinett | Springer

Although the immune response in LC is complex and highly variable between patients, the recent success of immunotherapy trials in non-small cell lung cancer (NSCLC) and other cancers has renewed interest in the potential efficacies of immunotherapies in LC and suggests that

combination therapy targeting both malignant cells and the tumor-infiltrating inflammatory cells (e.g., macrophages, T cells, etc.), could be effective in eliciting long-lasting adaptive immunity and subsequently disease ...

Macrophages, Inflammation, and Lung Cancer | American ...

Inflammation has been suggested to promote lung cancer via several possible pathways. For example, inflammatory cell-derived reactive nitrogen or oxygen species may bind to DNA and thus lead to genomic alterations (5, 6). Thus, pulmonary inflammation could play a role in cancer initiation or promotion.

(PDF) The Role of Inflammation in Lung Cancer

Your suggested treatment plan depends on whether you have non-small-cell lung cancer or small-cell lung cancer. Non-small-cell lung cancer. If you have non-small-cell lung

cancer that's in only 1 of your lungs and you're in good general health, you'll probably have surgery to remove the cancerous cells.

Lung cancer - Treatment - NHS

Clinical and epidemiologic studies have suggested a strong association among chronic infection, inflammation, and cancer. Immune system plays a critical role in maintaining tissue homeostasis, cell turnover, tissue remodeling, and preventing infection and cell transformation.

The Role of Inflammation in Lung Cancer | SpringerLink

Immunotherapy is the

name given to cancer treatments that use the body's immune system to attack cancer cells. This can help: shrink the tumour; make it grow less quickly.

Immunotherapy drugs are used to treat non-small cell lung cancer (NSCLC) that has spread outside the lung or to other parts of the body.

Immunotherapy for lung cancer - Macmillan Cancer Support

Obstructive lung disease. Asthma, chronic bronchitis, bronchiectasis and chronic obstructive pulmonary disease (COPD) are all obstructive lung diseases characterised

by airway obstruction. This limits the amount of air that is able to enter alveoli because of constriction of the bronchial tree, due to inflammation.

Respiratory disease - Wikipedia

Inflammation is a tissue response to a variety of harmful stimuli, such as pathogens, irritants, and injuries, and can eliminate insults and limit tissue damage. However, dysregulated inflammation is recognized as a cause of many human diseases, exemplified by organ fibrosis and cancer. In this regard, inflammation-promoted fibrosis is commonly observed in human lung diseases, such as ...
