Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three

thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

The 48 Laws of Black Empowerment

The 48 Laws of Power was written by Robert Greene and first published in 1998. It is often praised as one of the best books to read if you want to get ahead in life. This got me to thinking, "why isn't there anything like this for our community?" We have a lot of people talking about what we need to do, what we should do, and what we could do as a community, but nothing concrete that we could all sit down with, learn from, and relate to on an individual level. *The 48 Laws of Black Empowerment* was written to bridge the gap between individual action and a united black community. This book is broken down into six areas of importance to the black community. 1. Personal 2. Family 3. Finance 4. Community 5. Philanthropy 6. Activism Working to individually improve ourselves in these areas will automatically result in a shift in black community consciousness. While *The 48 Laws of Power* is a great book, it just wasn't written with our community or needs in mind. *The 48 Laws of Black Empowerment* is about cultivating success in business and life, while also helping our friends, family and community

succeed with us.

Power comes in many forms and Greene has laid out in great detail how to get it. It's the dirty secret that no one talks about, yet deep down we know it's true. *How to Use 48 Laws of Power* is a Machiavellian treatise for the modern age. It boasts the unique distinction of being quoted by such management luminaries as Jay Z, UGK, Kanye West, and Drake. This book is amoral, hauntingly true, and indispensable. It should be on the bookshelf of anyone who aspires to any level of success in any organization or profession. It should not gather dust but should be read regularly, according to a plan - one law a day, for example, absorbed slowly and contemplated deeply. Author Robert Greene draws on a rich variety of sources including books so threatening that they were banned by the ancient Chinese. He cites the memoirs of Machiavelli, various con men, and many others who swept aside what ought to be in order to focus on what is. It might seem that anyone who follows all of these laws in their rich, narrative detail will turn out to be a very unpleasant person. That's probably not true. *getAbstract* suspects, in contrast, that the person who masters the laws of power will be extremely pleasant, with winning ways and a knack for likeability, yet awe-inspiring and in control - though not always obviously so. Doesn't that sound tempting? With this book, You will learn how to influence people and gain more control over every area of your life. You can read

Summary of The 48 Laws of Power

by Robert Greene - A Comprehensive Summary
BookSummaryGr

Summary of The 48 Laws of Power The desire for power is a fundamental human behavior. When one feels that he has no

power over others or events, he is likely to be depressed. Everyone wants power. Those who pretend to have no desire for power are either deceiving themselves or attempting to deceive others. Power is like a drug that makes you stronger each time you taste it. The more you get, the more you want. Even though it is a fundamental human behavior, the desire for power is considered impolite and selfish. It is widely held that those who seek power must seem to have no interest in it, and on the contrary they must pretend to care only about others. The one who can disguise his pursuit of power with his care for others ends up becoming the most powerful. This seems paradoxical but the fact remains that you cannot honestly and forthrightly pursue power. You invariably have to disguise both your means and your ends. The 48 Laws of Power by Robert Greene is a collection of “laws” based on historical and philosophical anecdotes. These laws are amoral as they themselves don’t take into account any sense of right or wrong. Instead, the laws focus on how one can increase their influence over any situation, regardless of their moral consequences. This book explores the nuances of manipulating people around you for establishing power. The book focuses on how to gain power in any situation, regardless of whether it’s morally right or wrong, and it uses specific anecdotes from history to illustrate the “rules of power”. These laws may seem scandalously frank, but you can apply them without violating any of the strictures of public morality, which, according to Robert, is the way to get the best results. Takeaways A detailed "About the Author" section Preview: The 48 Laws of Power, written by Robert Greene and published in 1998, claims to offer readers the secrets to amassing power within the confines of contemporary society's rules, regulations, and norms. In the book's preface, Greene argues that, at least on the surface, the quest for power has been demonized, the end result of a culture that frowns upon those who seem too eager to get too far ahead in life. From Greene's perspective however, very little has changed in the time between the royal courts of old and the high-intensity board rooms of today; according to Greene, the people who amass the most power are those who can crush their enemies while appearing outwardly benevolent. The essence of Greene's perspective on power dynamics can be aptly summarized by President Teddy Roosevelt: "Speak softly and carry a big stick."
