The Wagstaff Collection of Photographs at the J. Paul Getty Museum *Getty Publications*

Samuel J. Wagstaff Jr. (1921-1987) amassed an extraordinary collection of 26,000 photographs between 1973 and 1984, recognizing that photography was an undervalued art form on which he might have a profound impact as a collector. He was mainly attracted to photographs that stimulated his imagination, and his taste ran toward the idiosyncratic—images that surprised him chiefly because he had never seen them before. In choosing the 147 works reproduced in this volume, Paul Martineau selected masterpieces as well as images from obscure sources: daguerreotypes, cartes-de-visite, and stereographs, plus mug shots, medical photographs, and works by unknown makers. The latter category contains some of the most outstanding objects in the collection, demonstrating Wagstaff’s willingness to position unfamiliar images alongside works by established masters as well as underrepresented contemporary artists of the time, including Jo Ann Callis, William Garnett, and Edmund Teske. This book is published to accompany an eponymous exhibition on view at the J. Paul Getty Museum from March 15 to July 31, 2016; at the Wadsworth Atheneum in Hartford, CT, from September 10 to December 11, 2016; and at the Portland Museum of Art in Portland, ME, from February 1 to April 30, 2017.

“Daniel Barbarisi plunges into an adventure from another era when he goes in search of buried treasure, guided only by a cryptic poem, a mischievous art collector, and the footsteps another pursuer who died on the quest... Every page draws you deeper into this no-man’s-land where fortune—or tragedy—awaits.” —Christopher McDougall, author of *Born to Run* When Forrest Fenn was given a fatal cancer diagnosis, he came up with a bold plan: He would hide a chest full of jewels and gold in the wilderness, and publish a poem that would serve as a map leading to the treasure's secret location. Daniel Barbarisi first learned of Fenn's hunt in 2017, when a friend became consumed with decoding the poem and convinced Barbarisi, a reporter, to document his search. What began as an attempt to capture the inner workings of Fenn's hunt quickly turned into a personal quest that led Barbarisi down a reckless and potentially dangerous path, one that found him embroiled in searcher conspiracies and matching wits with Fenn himself. Over the course of four chaotic years, several searchers would die, endless controversies would erupt, and one hunter would ultimately find the chest. But the mystery didn't end there. Sarah's a whiz at tuning engines and winning races. Winning Craig, the local drag race hero, proves more difficult. He only has eyes for gorgeous women who are hot in the sack, not grubby tomboys. Sarah’s world gets an overhaul when her father hires Gordon. Soon she’s torn not only between two men she wants, but between the drag race winner she is and the woman she feels pressured to become. Reviews Sarah Matell isn't a run-of-the-mill romance heroine. She works as a technician in her father's California automotive speed shop, dresses and acts like a guy, and lives for drag racing. Anything female, from makeup to chick flicks, is an anathema to her. Sarah's one concession is her years-long crush on a fellow race-car driver, Craig Keller. Although they are only good friends, she fantasizes that one day she'll outrace him and he'll magically look at her as the love of his life. Meanwhile, Sarah is the apple of her father's eye, but things change when he hires Gordon Devine. Gordon has big plans, and he and Sarah do not get along. Despite the friction, Gordon asks Sarah to drive a prototype he's developed. She'll do anything to win, and soon everything begins to spiral out of control. Follow me through my journey of solving the poem written by Forrest Fenn. The solution to the poem would guide any searcher to a treasure chest hidden in the Rocky Mountains. Chasing the Thrill

Obsession, Death, and Glory in America's Most Extraordinary Treasure Hunt *Knopf*

"A full-throttle, first-person account of the treasure hunt set in motion by Forest Fenn--an eccentric art dealer and, some would say, robber baron--in 2010 that lasted a full decade and became the stuff of contemporary legend. When Forest Fenn was told he was going to die, he hid a chest full of jewels and gold in the wilderness and published a poem that contained a series of clues about the treasure's secret location. But he didn't die, and he wouldn't reveal the location. The wild hunt went on for another ten years. Daniel Barbarisi first learned of Fenn's hunt in 2017 when a friend began decoding the poem and convinced Barbarisi to catalogue his search. What began as a great story documenting the history of Fenn's treasure hunt--the rumors, characters, and pitfalls--quickly turned into a personal quest, as Barbarisi found himself on a sometimes reckless and possibly dead-end path, despite having a family at home. Over the course of the next three years, several searchers would die, endless controversies would erupt, and one anonymous unknown would find the ultimate prize. Rich with mystery, danger, and break-neck action, Barbarisi's account of the imagination and drive of desire, of obsession, and of a particularly unbridled adventure is pure gold on the page"--

Celebrating Hunting with Harrier Hounds in New Zealand *Becklyn Publishing Group*

Horses, hounds, risk-taking, adrenaline, the great outdoors and camaraderie are all part of the allure of hunting. In The Thrill of the Chase: celebrating hunting with harrier hounds in New Zealand, evocative photographs capture the essence of this dynamic sport. Equestrian journalist and hunting enthusiast Sarah Milne and award-winning photographer Rob Tucker have travelled the country recording all facets of the hunting season. Separate chapters outline the roles of key participants, including the Master, huntsman and whipper-in. Other chapters provide an insight into breeding, assessing and preparing hounds for hunting. Several of New Zealand's most recognised hunting identities, including 95-year-old Bessie Fullerton-Smith, Patroness of the New Zealand Hunts' Association are profiled and give their personal insights into the unique qualities of hunting in this country. As many paddocks in New Zealand are enclosed by post and wire fences, jumping wire presents a significant difference from hunting in either England or the USA. Although visitors initially find this challenging, it is an accepted part of the sport here. In the diverse New Zealand landscape, hunting can involve negotiating large fences (often wire), riding through streams or on the beach and around swamps and areas of bush. From Northland's coast-to-coast hunting, to rolling green Waikato farms, the big gorse hedges of Canterbury and expansive tussock lands of Central Otago, Rob Tucker's photographs record many of the hunts in action. Mount Taranaki, the mountains of the Central Plateau and the wide vistas of Hawkes Bay all provide wonderful backdrops for horses and hounds enjoying a day's hunting. Many good competition horses have started their careers in the hunting field and several New Zealand event riders have enjoyed the sport, including Mark Todd who comments in his foreword on 'the excitement of crossing fantastic country at speed and the challenge of jumping whatever comes in front of you.' One hundred and forty stunning photographs capture the action, fun and magnificent scenery that makes hunting in New Zealand such a special sport. Sarah Milne has been passionate about hunting since she first participated in the sport 26 years ago. It combines her love of horses and the New Zealand countryside with the challenge of following hounds. Sarah is an amateur whipper-in for the Waikato hunt and lives in Cambridge with her husband and two sons. She writes regularly for equestrian publications both here and internationally. Rob Tucker has been taking photographs for 36 years including four America's Cup regattas as Team New Zealand's in-house photographer, private work for Queen Elizabeth II, fashion photography with Elle McPherson and two front covers for Time International. Rob is based in New Plymouth.

Too Far to Walk

"Forrest has spent most of his life saving things, especially photographs. That's why it's been easy for him to illustrate this book. He apologizes for showing so many pictures of himself and justifies it by describing this volume as his scrapbook of memories. He has tested the extremes in his personal life, in business, and in combat, where he learned that some of the edges were closer than he thought. Those stories are collected here. He describes his mistakes as being ample, but whispers that none have weakened his ardor for the chase."--Jacket flap.

Moby Dick and the Thrill of the Chase

This book describes five years of adventure experienced by one Forrest Fenn treasure hunter and his searcher friends. The preface provides a summary of how his ground search experiences were

driven from complex to simplified "Moby Dick" solutions to the chase poem. This overview is followed by a detailed analysis of the hints and clues that supported his Moby Dick solution. While history will likely establish that Melville's Moby Dick was not a core element of the winning solve, this book narrative will hopefully provide insight to non-searchers about the sorts of intellectual and emotional rewards that were associated with this treasure hunt. This is a prototypic solve, and each step in building this compelling evidentiary base was personally rewarding. The author provides first-hand examples of the risks posed to searchers regarding confirmation biases and rabbit holes. Coincidences are inevitable in all detective searches for presumed fact associations. This story also describes the evolution of an unfit flatlander with no hunting or wildness experience into a seasoned amateur treasure hunter with a hundred miles of risk exposure. So while this solve may be viewed as Exhibit A for futile problem solving effort, the fun of crafting these hypotheses should not be understated. This book advances stories and ideas that should be of general interest to the chase community, specialized interest to behavioral scientists, and keen personal interest to citizens of Buffalo and Bighorn Mountain hikers. This book also includes references to many seasoned searchers who contributed enormously to the chase literature. It seems a certainty that success in this treasure hunt required indirect assistance from a great many talented searchers who graciously contributed to the chase literature.

The Animal Estate

The English and Other Creatures in Victorian England *Harvard University Press*
When we think about the Victorian age, we usually envision people together with animals: the Queen and her pugs, the sportsman with horses and hounds, the big game hunter with his wild kill, the gentleman farmer with a prize bull. Harriet Ritvo here gives us a vivid picture of how animals figured in English thinking during the nineteenth century and, by extension, how they served as metaphors for human psychological needs and sociopolitical aspirations. Victorian England was a period of burgeoning scientific cattle breeding and newly fashionable dog shows; an age of Empire and big game hunting; an era of reform and reformers that saw the birth of the Royal SPCA. Ritvo examines Victorian thinking about animals in the context of other lines of thought: evolution, class structure, popular science and natural history, imperial domination. The papers and publications of people and organizations concerned with agricultural breeding, veterinary medicine, the world of pets, vivisection and other humane causes, zoos, hunting at home and abroad, all reveal underlying assumptions and deeply held convictions—for example, about Britain’s imperial enterprise, social discipline, and the hierarchy of orders, in nature and in human society. Thus this book contributes a new new topic of inquiry to Victorian studies; its combination of rhetorical analysis with more conventional methods of historical research offers a novel perspective on Victorian culture. And because nineteenth-century attitudes and practices were often the ancestors of contemporary ones, this perspective can also inform modern debates about human-animal interactions.
