Contamination and ESD Control in High-Technology ...

Contamination control is the generic term for all activities aiming to control the existence, growth and proliferation of contamination in certain areas. Contamination control may refer to the atmosphere as well as to surfaces, to particulate matter as well as to microbes and to contamination prevention as well as to decontamination.

Contamination control - Wikipedia

ESD Ionizers for Static Control. ESD Ionizers are specialized devices that remove a static charge on a surface.

They are used to control static which can cause numerous problems in production. In manufacturing/producti on applications, static can cause a variety of problems such as process issues, lockups, contamination, product defects/failures and can even be a safety hazard by causing shocks to people.
