Growing Orchids The Specialist Orchid

The OrchidGarden company is a family business established in 2008. We grow botanical and hybrid orchids. The narrow specialization of our company may come as a surprise, but botanical orchids are fascinating plants. The Orchidaceae family includes over 27,000 botanical species and several times more hybrids.

The OrchidGarden. We grow botanical and hybrid orchids.

Orchids generally prefer bright but filtered light. They need protection from direct sunshine. Watering, humidity and feeding. Orchids prefer high air humidity, but their roots will rot easily in wet compost. Water them about once a week, ideally using tepid rainwater. Water from above and tip out any water that collects in the saucer under the pot.

Orchids: indoor cultivation / RHS Gardening

Sadly they are often mis-understood by many places where you can find an orchid to buy, whilst several popular orchids are not difficult to grow, some require a little more attention as to where they are placed, but if looked after they will reward you with wonderful blooms year after year, orchids purchased from a specialist orchid nursery will generally do better once you get them home.
