In Over Our Heads

The Mental Demands of Modern Life *Harvard University Press*
Surveying the disparate expert "literatures," which normally take no account of each other, Kegan brings them together to reveal, for the first time, what these many demands have in common.

Our frequent frustration in trying to meet these complex and often conflicting claims results, he shows us, from a mismatch between the way we ordinarily know the world and the way we are unwittingly expected to understand it. In *Over Our Heads* provides us entirely fresh perspectives on a number of cultural controversies - the "abstinence vs. safe sex" debate, the diversity movement, communication across genders, the meaning of postmodernism. What emerges in these pages is a theory of evolving ways of knowing that allows us to view adult development much as we view child development, as an open-ended process born of the dynamic interaction of cultural demands and emerging mental capabilities.

In Over Our Heads

The Mental Demands of Modern Life *Harvard University Press*
If contemporary culture were a school, with all the tasks and expectations meted out by modern life as its curriculum, would anyone graduate? In the spirit of a sympathetic teacher, Robert Kegan guides us through this tricky curriculum, assessing the fit between its complex demands and our mental capacities, and showing what happens when we find ourselves, as we so often do, in over our heads. In this dazzling intellectual tour, he completely reintroduces us to the psychological landscape of our private and public lives. A decade ago in *The Evolving Self*, Kegan presented a dynamic view of the development of human consciousness. Here he applies this widely acclaimed theory to the mental complexity of adulthood. As parents and partners, employees and bosses, citizens and leaders, we constantly confront a bewildering array of expectations, prescriptions, claims, and demands, as well as an equally confusing assortment of expert opinions that tell us what each of these roles entails. Surveying the disparate expert "literatures," which normally take no account of each other, Kegan brings them together to reveal, for the first time, what these many demands have in common. Our frequent frustration in trying to meet these complex and often conflicting claims results, he shows us, from a mismatch between the way we ordinarily know the world and the way we are unwittingly expected to understand it. In *Over Our Heads* provides us entirely fresh perspectives on a number of cultural controversies—the "abstinence vs. safe sex" debate, the diversity movement, communication across genders, the meaning of postmodernism. What emerges in these pages is a theory of evolving ways of knowing that allows us to view adult development much as we view child development, as an open-ended process born of the dynamic interaction of cultural demands and emerging mental capabilities. If our culture is to be a good "school," as Kegan suggests, it must offer, along with a challenging curriculum, the guidance and support that we clearly need to master this course—a need that this lucid and richly argued book begins to meet.

In Over Our Heads : the Mental Demands of Modern Life

In Over Their Heads *Simon and Schuster*

Twelve-year-old twins Nick and Eryn and their robot stepsiblings, Jackson and Ava, try to save humanity from killer robots.

When We Lost Our Heads

A Novel *Penguin*

"Every decent friendship comes with a drop of hatred. But that hatred is like honey in the tea. It makes it addictive." Charismatic Marie Antoine is the daughter of the richest man in 19th century Montreal. She has everything she wants, except for a best

friend—until clever, scheming Sadie Arnett moves to the neighborhood. Immediately united by their passion and intensity, Marie and Sadie attract and repel each other in ways that thrill them both. Their games soon become tinged with risk, even violence. Forced to separate by the adults around them, they spend years engaged in acts of alternating innocence and depravity. And when a singular event brings them back together, the dizzying effects will upend the city. Traveling from a repressive finishing school to a vibrant brothel, taking readers firsthand into the brutality of factory life and the opulent lives of Montreal's wealthy, *When We Lost Our Heads* dazzlingly explores gender, sex, desire, class, and the terrifying power of the human heart when it can't let someone go.

Out of Our Heads

Why You Are Not Your Brain, and Other Lessons from the Biology of Consciousness *Hill and Wang*

Alva Noë is one of a new breed—part philosopher, part cognitive scientist, part neuroscientist—who are radically altering the study of consciousness by asking difficult questions and pointing out obvious flaws in the current science. In *Out of Our Heads*, he restates and reexamines the problem of consciousness, and then proposes a startling solution: Do away with the two hundred-year-old paradigm that places consciousness within the confines of the brain. Our culture is obsessed with the brain—how it perceives; how it remembers; how it determines our intelligence, our morality, our likes and our dislikes. It's widely believed that consciousness itself, that Holy Grail of science and philosophy, will soon be given a neural explanation. And yet, after decades of research, only one proposition about how the brain makes us conscious—how it gives rise to sensation, feeling, and subjectivity—has emerged unchallenged: We don't have a clue. In this inventive work, Noë suggests that rather than being something that happens inside us, consciousness is something we do. Debunking an outmoded philosophy that holds the scientific study of consciousness captive, *Out of Our Heads* is a fresh attempt at understanding our minds and how we interact with the world around us.

Over Our Heads

An Analogy on Healthcare, Good Intentions and Unforeseen Consequences *Fire Starter Pub*

Over Our Heads, a new book by Rulon Stacey, points to good intentions and government interference. Costs continue to soar, and Americans already crippled by a sluggish economy struggle to pay escalating insurance premiums. Politicians, entertainers, and other public figures regularly demonize healthcare professionals as the ones who created this situation through either greed or mismanagement. Meanwhile, it seems as though government "solutions" just make things worse, and the problems keep piling up. This book will be welcomed by healthcare professionals searching for a way to tell their story, political reformers building a case for change, students seeking a defined case study on the healthcare cost crisis, and citizens seeking insights on how we got so far in "over our heads"-and where we're likely to end up.

Another Way

Living and Leading Change on Purpose *Chalice Press*

Another Way describes a new way of leadership for the 21st Century, one that inspires people to delve deeply into their own selves and that creates a mysterious relatedness among

strangers. When this leadership happens, we remember people are created to experience community, to find joy in one another, and to create a better world out of a deep reservoir where the soul resides. Written by the leaders of the Forum for Theological Exploration, the internationally recognized leadership incubator for emerging Christian leaders, *Another Way* will shape the way you look at yourself, your leadership, and the communities that hold you accountable to making the world a better place.

In Over Our Heads

Meditations on Grace *Augsburg Fortress*

* Compelling faith storeis, including strong retelling of many biblical stories * Includes provocative questions for reflection and discussion

Over Our Heads *Penguin UK*

Over Our Heads: the brilliant debut by Andrew Fox. A young man rushes to the bedside of his ex, knowing the baby she's having is not his own. Travelling colleagues experience an eerie moment of truth when a fire starts in their hotel. A misdirected parcel sets off a complex psychodrama involving two men, a woman and a dog ... Andrew Fox's clever, witty, intense and thoroughly entertaining stories capture the passions and befuddlements of the young and rootless, equally dislocated at home and abroad. Set in America and Ireland - and, at times, in jets over the Atlantic - *Over Our Heads* showcases a brilliant new talent. 'The stories are wonderfully crafted and cared-for, the undertones are witty and ironic, but also serious and filled with sympathy' Colm Tóibín, *Guardian* 'Over Our Heads is full of surprises, all of them great' Roddy Doyle, winner of the Booker Prize 'Deft, clever, intense - this is a terrific debut from a very gifted new writer' Kevin Barry, winner of the IMPAC prize 'Andrew Fox's stories are slivers of power; knowing, watchful and burning with intelligence. Lives half-lived or grasped at; loves longed for and destroyed; the journey of the modern emigrant who goes away in the same daze in which he comes home: these are stories which linger long after they have been read' Belinda McKeon 'Fox is skilful at probing the bigger emotions: alienation, loss and nostalgia. His sparse prose is an effective counterpoint to complex feelings. His stories deal with the moments that shape a life: first trysts, the illness of a parent, the graduation of a child. ... Fox knows the hallmark of a good short story: leave the reader wanting more' *Financial Times* 'An impressive and thoroughly enjoyable collection ... Fox lets his characters tramp around their worlds, searching for heaven on earth' *Irish Times* 'Achieves the effect of intimating deep fissures of pain and longing beneath the lightest of surface cracks. Fox's prose is poised and confident, a well-honed tool with which to treat his delicate subject matter' *Sunday Times* 'The best of these stories are very good indeed ... While there are few happy souls in these arresting stories, the reader can find consolation in Fox's supple prose and frequently subtle insights' *Irish Independent* 'A remarkable new talent ... He is able to tread so lightly that we only realise we have been cleverly punched in the solar plexus after we finish the last line' *Irish Mail on Sunday* (five stars)

The Roof Over Our Heads *Abrams*

A charming YA novel about a family who puts on an immersive, interactive play to save their historical home Finn lives in a family of theater lovers. His older brothers are both actors, and one of his moms is an actor and the other one is a director. They even live in an enormous historic mansion owned by the Beauregard, Minnesota's largest regional theater. Finn is desperate to be an actor, too, despite the fact that he can never seem to remember his lines. When a new artistic director threatens to sell the

Jorgensen house and kick his family out of the only home he's ever known, his family puts on a show—an immersive 1890s experience unlike anything else out there. But will it be too much for his mom Lula, who is recovering from cancer? Will Finn connect with his crush and deal with his long-time rival, Jade? Will saving the house save Finn's acting career? Funny, warm, and full of Victorian hijinks, this is a novel for anyone looking for a place to belong.

Under Their Skin *Simon and Schuster*

From New York Times bestselling author Margaret Peterson Haddix comes the first book in a “crisp, intriguing, and thought-provoking” (Booklist, starred review) new series about twins who are on a quest to discover the secrets being kept by their new family. Nick and Eryn’s mom is getting remarried, and the twelve-year-old twins are skeptical when she tells them their lives won’t change much. Well, yes, they will have to move. And they will have a new stepfather, stepbrother, and stepsister. But Mom tells them not to worry. They won’t ever have to meet their stepsiblings. This news puzzles Nick and Eryn, so the twins set out on a mission to find out who these kids are—and why they’re being kept hidden.

Living on Our Heads *Charisma Media*

Illustrates upside-down thinking and values using humor to poke fun at the absurdity of the twisted positions held by so many cultural elites.

A Roof Over Our Heads and Food on the Table *America Star Books*

"Pat Kavanaugh wanted to major in English at Nutmeg State University. His parents persuaded him to major in accounting ... [and while at school] he met his roommate named Sean Donnelly. Both Irish-Americans, they become friends ... in the end Sean was always there for him"--Page 4 of cover.

Consciousness and the Social Brain *Oxford University Press*

What is consciousness and how can a brain, a mere collection of neurons, create it? In *Consciousness and the Social Brain*, Princeton neuroscientist Michael Graziano lays out an audacious new theory to account for the deepest mystery of them all. The human brain has evolved a complex circuitry that allows it to be socially intelligent. This social machinery has only just begun to be studied in detail. One function of this circuitry is to attribute awareness to others: to compute that person Y is aware of thing X. In Graziano's theory, the machinery that attributes awareness to others also attributes it to oneself. Damage that machinery and you disrupt your own awareness. Graziano discusses the science, the evidence, the philosophy, and the surprising implications of this new theory.

Chatter

The Voice in Our Head and How to Harness It *Random House*

Turn your inner voice from critic to coach As humans, we all have a special ability that is unique to our species: an inner voice. It helps us focus, achieve our goals and reflect on life’s most joyful

moments. But it can also be our biggest enemy, chewing over painful emotions and replaying embarrassments, hijacking our thoughts to run amok with ‘chatter’. How does this source of wisdom turn into our biggest critic? And how can we take back control? These are the questions one of the world’s leading experts on the conscious mind set out to answer twenty years ago, when he started on an audacious mission — to study the conversations we have with ourselves. In this hugely anticipated book, that expert, the award-winning neuroscientist and psychologist Ethan Kross, reveals the sheer power of the inner voice, and shows us that we all possess a set of tools for harnessing it. Hidden in plain sight, they are in the words we use and the stories we tell ourselves, in the conversations we have with our loved ones and in the habits we undertake when tackling our goals. They are even sometimes in our bizarre rituals and lucky charms. Fascinating, entertaining and full of original insights and tips, *Chatter* will change the conversations you have with yourself forever, and help you lead a happier, more productive life.

An Everyone Culture

Becoming a Deliberately Developmental Organization

Harvard Business Review Press

A Radical New Model for Unleashing Your Company’s Potential In most organizations nearly everyone is doing a second job no one is paying them for—namely, covering their weaknesses, trying to look their best, and managing other people’s impressions of them. There may be no greater waste of a company’s resources. The ultimate cost: neither the organization nor its people are able to realize their full potential. What if a company did everything in its power to create a culture in which everyone—not just select “high potentials”—could overcome their own internal barriers to change and use errors and vulnerabilities as prime opportunities for personal and company growth? Robert Kegan and Lisa Lahey (and their collaborators) have found and studied such companies—Deliberately Developmental Organizations. A DDO is organized around the simple but radical conviction that organizations will best prosper when they are more deeply aligned with people’s strongest motive, which is to grow. This means going beyond consigning “people development” to high-potential programs, executive coaching, or once-a-year off-sites. It means fashioning an organizational culture in which support of people’s development is woven into the daily fabric of working life and the company’s regular operations, daily routines, and conversations. *An Everyone Culture* dives deep into the worlds of three leading companies that embody this breakthrough approach. It reveals the design principles, concrete practices, and underlying science at the heart of DDOs—from their disciplined approach to giving feedback, to how they use meetings, to the distinctive way that managers and leaders define their roles. The authors then show readers how to build this developmental culture in their own organizations. This book demonstrates a whole new way of being at work. It suggests that the culture you create is your strategy—and that the key to success is developing everyone.

How the Way We Talk Can Change the Way We Work

Seven Languages for Transformation *John Wiley & Sons*

Why is the gap so great between our hopes, our intentions, even our decisions-and what we are actually able to bring about? Even when we are able to make important changes-in our own lives or the groups we lead at work-why are the changes are so frequently short-lived and we are soon back to business as usual?

What can we do to transform this troubling reality? In this intensely practical book, Harvard psychologists Robert Kegan and Lisa Laskow Lahey take us on a carefully guided journey designed to help us answer these very questions. And not just generally, or in the abstract. They help each of us arrive at our own particular answers that can solve the puzzling gap between what we intend and what we are able to accomplish. *How the Way We Talk Can Change the Way We Work* provides you with the tools to create a powerful new build-it-yourself mental technology.

Out of My Head

On the Trail of Consciousness *New York Review of Books*

Adventures in cutting-edge ideas about consciousness, from bestselling non-fiction writer Tim Parks. Hardly a day goes by without some discussion about whether computers can be conscious, whether our universe is some kind of simulation, whether mind is a unique quality of human beings or spread out across the universe like butter on bread. Most philosophers believe that our experience is locked inside our skulls, an unreliable representation of a quite different reality outside. Colour, smell and sound, they tell us, occur only in our heads. Yet when neuroscientists look inside our brains to see what's going on, they find only billions of neurons exchanging electrical impulses and releasing chemical substances. Five years ago, in a chance conversation, Tim Parks came across a radical new theory of consciousness that undercut this interpretation. This set him off on a quest to discover more about this fascinating topic and also led him to observe his own experience with immense attention. *Out of My Head* tells the gripping, highly personal, often surprisingly funny, story of Tim Parks' quest to discover more about this fascinating topic. It frames complex metaphysical considerations and technical laboratory experiments in terms we can all understand. Above all, it invites us to see space, time, colour and smell, sounds and sensations in an entirely new way. The world will feel more real after reading it.

Out of Our Heads

The Rolling Stones, the Beatles and Me with Proof of Truth

Rolling Stones Insider Shares Memories and Rare Artifacts - Back in the mid 1960s, overnight, a street-smart east coast kid went from being a college student to tour manager/moneyman and confidante to the Rolling Stones. The band didn't eat, drink, or even play unless Ronnie Schneider did his job, and this trusting relationship led to a wild adventure that would soon include the Beatles, Swinging London, and producing the mythical '69 Stones tour that culminated in the infamous show at Altamont and the feature film, *Gimme Shelter*. In his new book, Schneider gives readers an all access pass into the most intimate spaces, from hotels and boardrooms to private planes and backstage debauchery, crunching deals, babysitting the band, tasting wine, woman and dope - this is a front row seat to rock's last great era; jam-packed with rare artifacts and all the paperwork to back it up.

The Book of Lost Names *Simon and Schuster*

Eva Traube Abrams, a semiretired librarian in Florida, is at the returns desk one morning when her eyes lock on to a photograph in a newspaper nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years--a book she recognizes as the *Book of Lost Names*. The accompanying article describes the looting of libraries across Europe by the Nazis during World War II--an experience Eva remembers all too well. As a graduate student in

1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in the *Book of Last Names* will become even more vital when the Resistance cell they work with is betrayed and Rémy disappears. As the Germans close in, Eva records a last, vital message in the book. Decades later, does she have the strength to seek out its answer--and help reunite those lost during the war?

Roll of Thunder, Hear My Cry *Penguin*

Young Cassie Logan endures humiliation and witnesses the racism of the KKK as they embark on a cross-burning rampage, before she fully understands the importance her family attributes to having land of their own.

Alongside Community

Learning in Service

Alongside Community is a step-by-step guide that prepares social science students to be democratic citizens by examining the theory, method, and sociopolitical dynamics that impact helping those different from oneself. The first part of this book explores the more theoretical issues of helping others, including issues of social identity, values, and power. The second part of this guidebook examines action-based methods; interventions available for community-based engagement; and the sociopolitical issues that inevitably arise for those who strive to create social change including issues of race, ethnicity, social class, gender, sexual orientation, mental health, educational and environmental justice along with suggestions on how to address these issues. The third part of *Alongside Community* critically explores how to measure the impact of community service on major stakeholders including student, faculty, college and community agency and ends with reflections and suggestions on how to be a lifelong civically engaged citizen.

In Over Our Heads

The Mental Demands of Modern Life

Over Our Heads Under Our Feet

Stories

From the winner of the Arts & Letters Prize for Fiction, a new collection of short stories. Moving from the poignant to the humorous and back again, Dwight Holing takes readers on a memorable journey to the wilderness of love where people must reconcile desire and reality. These stories travel terrains both exotic and familiar - from the wilds of Africa where a couple must contend with an unspoken truth to a woman fighting for a child in an orphanage to a wind farmer falling under the spell of an island's magic. They explore the territory in our heart where the human spirit dwells while marveling at the natural world's ability to nourish our soul. "Written with humanity and humor." "Beautiful and moving."

The Evolving Self *Harvard University Press*

"The Evolving Self" focuses upon the most basic and universal of psychological problems--the individual's effort to make sense of experience, to make meaning of life. According to Robert Kegan, meaning-making is a lifelong activity that begins in earliest infancy and continues to evolve through a series of stages encompassing childhood, adolescence, and adulthood. The Evolving Self describes this process of evolution in rich and human detail, concentrating especially on the internal experience of growth and transition, its costs and disruptions as well as its triumphs. At the heart of our meaning-making activity, the book suggests, is the drawing and redrawing of the distinction between "self" and "other." Using Piagetian theory in a creative new way to make sense of how we make sense of ourselves, Kegan shows that each meaning-making stage is a new solution to the lifelong tension between the universal human yearning to be connected, attached, and included, on the one hand, and to be distinct, independent, and autonomous on the other. "The Evolving Self" is the story of our continuing negotiation of this tension. It is a book that is theoretically daring enough to propose a reinterpretation of the Oedipus complex and clinically concerned enough to suggest a variety of fresh new ways to treat those psychological complaints that commonly arise in the course of development. Kegan is an irrepressible storyteller, an impassioned opponent of the health-and-illness approach to psychological distress, and a sturdy builder of psychological theory. His is an original and

distinctive new voice in the growing discussion of human development across the life span.

Unscripted *Abrams*

A funny and timely debut YA about the toxic masculinity at a famous improv comedy camp Seventeen-year-old Zelda Bailey-Cho has her future all planned out: improv camp, then Second City, and finally Saturday Night Live. She's thrilled when she lands a spot on the coveted varsity team at a prestigious improv camp, which means she'll get to perform for professional scouts—including her hero, Nina Knightley. But even though she's hardworking and talented, Zelda's also the only girl on Varsity, so she's the target for humiliation from her teammates. And her 20-year-old coach, Ben, is cruel to her at practice and way too nice to her when they're alone. Zelda wants to fight back, but is sacrificing her best shot at her dream too heavy a price to pay? Equal parts funny and righteous, Unscripted is a moving debut novel that Printz Award winner Nina LaCour calls "a truly special book, written at exactly the right time."

Keep Your Head Up *Simon and Schuster*

D wakes up on the wrong side of the bed, but discovers after a long day at school that while not every day will be a good day, the bad ones will pass.

In Their Heads

Gwen had always been an average kid-or so it seems. She's been hiding her secret abilities from the world for all of her life. That is until Jax comes into the picture and turns her world upside down. In this fascinating story of supernatural abilities, Gwen faces a choice: goodness or greed? Should she listen to her heart or her head? Her decision could change her relationship with everyone for the worst: or maybe, it's all in her head.

Just Above My Head *Delta*

Love and courage bind three extraordinary people--a former child evangelist, a famous gospel singer, and the latter's manager-brother--as they shape and are shaped by the events of the past three decades.

Women in the Museum

Lessons from the Workplace *Taylor & Francis*

The number of women working in museum settings has grown exponentially since the start of the twentieth century. Women in the Museum explores the professional lives of the sector's female workforce today and examines the challenges they face working in what was, until recently, a male-dominated field. Drawing on testimony gathered from surveys, focus groups, and interviews with female museum professionals, the book examines the nature of gender bias in the profession, as well as women's varied responses to it. In doing so, it clarifies how women's work in museums differs from men's and reveals the entrenched nature of gender bias in the museum workplace. Offering a clear argument as to why museums must create, foster, and protect an equitable playing field, the authors incorporate a gender equity agenda for individuals, institutions, graduate programs, and professional associations. Written by experienced museum professionals, Women in the Museum is the first book to examine the topic in depth. It is useful reading for students and academics in the fields of museum studies and gender studies, as well as museum professionals and gender equality advocates.

Over Our Heads

Sean's still up to his neck in trouble, but at least he's finally found an example of his father's work, along with all of his notes. Now all Sean has to do is figure out not only how to reproduce his father's greatest achievement, but to solve the one problem his father wasn't able to. Holed up in a cold war era bomb shelter, all Sean wants to do now is keep his head down and his family safe, while he untangles this latest problem. Like it or not however, Sean has set events in motion that will change the future for all of the mages and supernatural beings involved, should he prove successful. While many may welcome these changes and the freedom it will bring them, some of the more powerful councils will most definitely not. WARNING: "Over Our Head" contains explicit sexuality, nudity, violence, bad language, attempted murder, actual murder, self-defense, pro-active self-defense, destruction of private property, vandalism, breaking and entering, tantric magic, polyamory, mayhem, gratuitous sex and violence, an opportunistic goblin, and a little girl who knows all about guilt trips.

Changing on the Job

Developing Leaders for a Complex World *Stanford University Press*

Listen to people in every field and you'll hear a call for more sophisticated leadership—for leaders who can solve more complex problems than the human race has ever faced. But these leaders won't simply come to the fore; we have to develop them, and we must cultivate them as quickly as is humanly possible. Changing on the Job is a means to this end. As opposed to showing readers how to play the role of a leader in a "paint by numbers" fashion, Changing on the Job builds on theories of adult growth and development to help readers become more thoughtful individuals, capable of leading in any scenario. Moving from the theoretical to the practical, and employing real-world examples, author Jennifer Garvey Berger offers a set of building blocks to help cultivate an agile workforce while improving performance. Coaches, HR professionals, thoughtful leaders, and anyone who wants to flourish on the job will find this book a vital resource for developing their own capacities and those of the talent that they support.

The Romance of American Psychology

Political Culture in the Age of Experts *Univ of California Press*

"A wonderfully written book . . . [about] a little-recognized but enormously significant process that has shaped contemporary American political culture."--Cynthia Enloe, author of *The Morning After*

Francis Picabia

Our Heads are Round So Our Thoughts Can Change Direction *Moma*

Among the great modern artists of the past century, Picabia is one of the most elusive, given his extreme eclecticism and

persistent acts of self-contradiction. Though known as a Dadaist, Picabia's ongoing stylistic shifts, from Impressionism to radical abstraction, from mechanical imagery to pseudo-classicism, and from photo-based realism to art informel remain to be assessed in depth. Similarly, the breadth of his practice, which encompassed poetry, film and performance is under-recognized. Each makes him a figure relevant for contemporary artists, while the career as a whole challenges familiar narratives of modernism. Francis Picabia presents over 100 paintings, complemented by works on paper, publications, and film. Featuring some 500 illustrations and 14 essays, it examines the full range of Picabia's oeuvre. Authors including the exhibition curators, Anne Umland and Cathérine Hug, distinguished professors George Baker, Briony Fer, and David Joselit, and renowned Picabia scholars Carole Boulbès and Arnauld Pierre discuss a varied series of topics, including the corporeal character of Picabia's abstractions, his unexpected turn to mechanical painting, his experiments with materials and source imagery, the problems of his politics, and his contemporary legacy. A richly illustrated chronology details the expanded nature of Picabia's visual production - from press polemics to party organizing.

Super Fly

The Unexpected Lives of the World's Most Successful Insects *Penguin*

Winner of the National Outdoor Book Award for Natural History and a New York Times Editors Choice Pick "After reading Super Fly, you will never take a fly for granted again. Thank you, Jonathan Balcombe, for reminding us of the infinite marvels of everyday creatures." —Sy Montgomery, Author of *How to Be a Good Creature* From an expert in animal consciousness, a book that will turn the fly on the wall into the elephant in the room. For most of us, the only thing we know about flies is that they're annoying, and our usual reaction is to try to kill them. In *Super Fly*, the myth-busting biologist Jonathan Balcombe shows the order Diptera in all of its diversity, illustrating the essential role that flies play in every ecosystem in the world as pollinators, waste-disposers, predators, and food source; and how flies continue to reshape our understanding of evolution. Along the way, he reintroduces us to familiar foes like the fruit fly and mosquito, and gives us the chance to meet their lesser-known cousins like the Petroleum Fly (the only animal in the world that breeds in crude oil) and the Chocolate Midge (the sole pollinator of the Cacao tree). No matter your outlook on our tiny buzzing neighbors, *Super Fly* will change the way you look at flies forever. Jonathan Balcombe is the author of four books on animal sentience, including the New York Times bestselling *What A Fish Knows*, which was nominated for the PEN/E.O. Wilson Award for Science Writing. He has worked for years as a researcher and educator with the Humane society to show us the consciousness of other creatures, and here he takes us to the farthest reaches of the animal kingdom.
