mods.dk - Articles for Yaesu 'FT-102'

This page is devoted to the Yaesu FT-102 HF amateur bands dual conversion transceiver. It is an hybrid transceiver, as it uses solid state circuitry at all stages except for the final power amplifier (3 x 6146B) and driver (12BY7A). Conservatively rated at 100W, it is able to put more than 200W if tuned for maximum output (or smoke ;-)!).

EB5AGV's Yaesu FT-102 page

Description The FT-102 presents the ham radio operator with a unique combination of designs specifically directed toward the best receiver performance and transmitter signal purity that could be achieved with the state of the art electronics available at the time of production.
