Psychiatric Issues In Parkinsons Disease

The non-motor, and particularly psychiatric, aspects of Parkinson's disease are increasingly recognised as difficult and important problems that may impact more on patients' well-being, and be more difficult to manage, than the motor or other physical aspects. This book

brings together reviews on theoretical and practical facets of this area from a variety of specialties.

Psychiatric issues in Parkinson's disease.

A practical guide

Some psychiatric syndromes in PD are associated with the disease itself:
 Depression and anxiety
 Cognitive impairment
 Apathy Other psychiatric symptoms may be associated with the treatment of PD:
 Impulse control disorders Psychosis
 Irritability/agitation/dysphoria (eg, "off" periods, treatment withdrawal)

Psychiatric Issues in Parkinson's Disease

| Neupsy Key

You may experience a range of mental health issues alongside your

physical Parkinson's symptoms. These can range from depression and anxiety to hallucinations, memory problems and dementia. Anxiety and depression are two of the most common mental health symptoms that affect people with Parkinson's. Nearly half of all people with Parkinson's have experienced one of these issues.

Parkinson's and mental health | Parkinson's UK

Parkinson's disease (PD) is commonly associated with psychiatric morbidity, which may include depression, anxiety, and dopaminergic psychosis. These psychiatric disturbances have a multifactorial

relationship to the underlying neuropathology of PD. The treatment goals may include improvement or remission of psychiatric symptoms and restoration of optimal patient functioning.

Psychiatric disorders in Parkinson's disease

Many nonmotor aspects of PD, including depression, drug-induced psychosis and impulse control disorders, cognitive impairment, anxiety, and sleep disturbances, are common and are associated with a variety of poor outcomes. 2 These nonmotor symptoms complicate the clinical management of the disorder and are

significant determinants of poor quality of life for patients and their caregivers. 3
