Data Analysis and Presentation Skills: the PwC Approach ...

When and how should you use data in a presentation? The answer is that you should use figures and numbers whenever they give the best evidence to back up your argument, or to tell your story. But how to present that data is more difficult. Many people are not interested in tables of numbers, and may struggle to understand graphs.

Presenting Data | SkillsYouNeed

When you’re working in analytics, telling a story can be as important as the actual data behind it. Your analytical insights are only as good as the actions that you can take from them, and persuasive presentations are at the core of convincing business people to act. I realize that sounds cliché, but it’s true.

5 Presentation Tips for Data Analysts and Data Storytelling

7. Build a data management roadmap. While, at this point, this particular step is optional (you will have already gained a wealth of insight and formed a fairly

sound strategy by now), creating a data governance roadmap will help your data analysis methods and techniques become successful on a more sustainable basis.
