 Ethics: Inventing Right and Wrong is a 1977 work of ethics by J. L. Mackie known for its espousal of moral skepticism and the argument from queerness .

Ethics: Inventing Right and Wrong - Wikipedia

Mackie's book provides some interesting arguments for the overall thesis that there are no objective values in Ethics, but that we can and should invent a consistent and commonly shared set of ethical principles (hence the sub-title inventing right and wrong) - ie this shared basis has no objective truth outside of the minds of human beings, but that does not mean we cannot have a common approach.

Bry Willis If one parses 'ethics' from 'morality', and ethics is a construct of rules, then right is adhering to the rules and wrong is not adhering to them.

Ethics: Inventing Right and Wrong by John Leslie Mackie

Ethics: Inventing Right and Wrong. This title presents an insight into moral skepticism of the 20th century. The author argues that our every-day moral codes are an 'error theory' based on the presumption of moral facts which, he persuasively argues, don't exist. His refutation of such facts is based on their metaphysical 'queerness' and the observation of cultural relativity.

In the first place, his theory is not
 subjectivist: it is not claiming that we
 ought to do whatever we feel is right.
 Further, it is not emotivist: while the
 emotivist says a moral judgment is
 merely an expression of the utterer's
 feelings, Mackie thinks that moral

judgments legitimately attempt to, and
 fail to, explain reality.
