Is Addiction a Disease? - Partnership to End Addiction

In the past, addiction was viewed as stemming from an individual's moral failing and weakness of will (NIH, 2010). With the advances in scientific research, biological theories of addiction as a "brain disease" are now widely accepted; however, this point of view is still controversial. Many prefer to characterize it as a condition that requires continued management, rather than a disease, as it promotes the idea that addiction can be managed through behavioral changes and that the ...
