**Bumble-Ardy** *Harper Collins*  
Since the publication of his classic Outside Over There in 1981, Maurice Sendak's book illustrations have focused on interpreting the texts of such authors as James Marshall, Tony Kushner, Wilhelm Grimm, Ruth Krauss, Herman Melville, and Mother Goose. And beginning in 1980, with his sets and costumes for The Magic Flute, Sendak launched a busy second career as the designer of stage productions of opera and ballet. Now comes Bumble-Ardy, the first book he has written as well as illustrated in thirty years. Bumble-Ardy has evolved from an animated segment for Sesame Street to a glorious picture book about a mischievous pig who reaches the age of nine without ever having a birthday party. But all that changes when Bumble-Ardy throws a party for himself and invites all his friends, leading to a wild masquerade that quickly gets out of hand. In this highly anticipated picture book, Sendak once again explores the exuberance of young children and the unshakable love between parent (in this case, an aunt) and child.

**There's a Mystery There**

**The Primal Vision of Maurice Sendak** *Doubleday*  
An extraordinary, path-breaking, and penetrating book on the life and work and creative inspirations of the great children's book genius Maurice

Sendak, who since his death in 2012 has only grown in his stature and recognition as a major American artist, period. Polymath and master interviewer Jonathan Cott first interviewed Maurice Sendak in 1976 for Rolling Stone, just at the time when Outside Over There, the concluding and by far the strangest volume of a trilogy that began with Where The Wild Things Are and In the Night Kitchen, was gestating. Over the course of their wide-ranging and revelatory conversation about his life, work, and the fantasies and obsessions that drove his creative process, they focused on many of the themes and images that would appear in the new book five years later. Drawing on that interview,There's a Mystery There is a profound examination of the inner workings of a complicated genius's torments and inspirations that ranges over the entirety of his work and his formative life experiences, and uses Outside Over There, brilliantly and originally, as the key to understanding just what made this extravagantly talented man tick. To gain multiple perspectives on that intricate and multifaceted book, Cott also turns to four "companion guides": a Freudian analyst, a Jungian analyst, an art historian, and Sendak's great friend and admirer, the playwright Tony Kushner. The book is richly illustrated with examples from Sendak's work and other related images.

**The Sign on Rosie's Door** *Harper Collins*

There was a sign on Rosie's door that said, "If you want to know a secret, knock three times." Kathy, Rosie's good friend, knocked three times and learned the secret-that Rosie was no longer Rosie, but Alinda, the lovely lady singer. Adventures with Alinda were fun for Kathy and Sal and Pudgy and Dolly. Even Lenny, who occasionally didn't believe in Alinda, was delighted by the Fourth of July celebration that Alinda, with the help of the Magic Man, held. At the end of the celebration, Alinda was gone forever, and Rosie had returned, but she soon found something else nice to be. Maurice Sendak, the well-known artist and author-illustrator of Kenny's Window and Very Far Away, has written a story of real children, playing as only children know how. Young readers will wish that Alinda lived next door to them.

**SHAN HAI JING—A BOOK COVERED WITH BLOOD**

**The Story Of Developers Of The Catalog Of Human Population** *HPA Press*

In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone,

who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information about representatives of a particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrey Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this "civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.

**Presto and Zesto in Limboland** *Red Fox*

**My Brother's Book** *HarperCollins*

Fifty years after Where the Wild Things Are was published comes the last book Maurice Sendak completed before his death in May 2012, My Brother's Book. With influences from Shakespeare and William Blake, Sendak pays homage to his late brother, Jack, whom he credited for his passion for writing and drawing. Pairing Sendak's poignant poetry with his exquisite and dramatic artwork, this book redefines what mature readers expect from Maurice Sendak while continuing the lasting legacy he created over his long, illustrious career. Sendak's tribute to his brother is an expression of both grief and love and will resonate with his lifelong fans who may have read his children's books and will be ecstatic to discover something for them now. Pulitzer Prize-winning literary critic and Shakespearean scholar Stephen Greenblatt contributes a moving introduction.
