TEC Tunnel Engineering consultants

A tunnel is an underground passageway, dug through the surrounding soil/earth/rock and enclosed except for entrance and exit, commonly at each end. A pipeline is not a tunnel, though some recent tunnels have used immersed tube construction techniques rather than traditional tunnel boring methods. A tunnel may be for foot or vehicular road traffic, for rail traffic, or for a canal. The central ...

Islington Tunnel is the major engineering work of the Regent's Canal. The engineer who built it was the Regent's Canal's engineer, James Morgan. The early print illustrated to the left shows the west portal, probably in the very early days of the tunnel before the introduction of a steam tug. It also interestingly illustrates the type of open horse drawn boat in use at that time, confirmed by ...

Canal Tunnels of London

History. Islington Tunnel opened in 1818 and was built by the engineer James Morgan.. The Regent's Canal was authorised by Act of Parliament on 13 July 1812, and a month later James Morgan, who had previously produced plans and sections to support the application, was appointed as Engineer, Architect and Land Surveyor for the scheme. At the time, Morgan had little civil engineering experience ...
