Disagreements on the relationship of disarmament to nonproliferation center on the Nuclear Non-Proliferation Treaty, a successful, Cold War-era agreement that establishes a bargain: States not having nuclear weapons agree to forego them and the acknowledged “haves” (the United States, Russia, the United Kingdom, France, and China) agree to work in the direction of disarmament. Whether the “haves” are meeting their end of the bargain generates intense disagreements that roil the ...

Making Sense of the Nonproliferation-Disarmament Divide ...

While this effort has led to some successes, the danger remains: countries with nuclear weapons capabilities have not yet disarmed and those previously without nuclear weapons are developing them. Over time, countries have narrowed down a few strategies to enforce nonproliferation, though the debate over which ones are best continues.

Tools of Nonproliferation | World101

The failure of some non-nuclear-weapon state parties to the treaty to comply with the NPT’s provisions and their safeguards obligations erodes confidence and undermines the goals of the treaty. Nonproliferation noncompliance may also have a negative impact on the pace and future progress of nuclear disarmament. The NPT review process has not so far proved to be an effective tool for tackling noncompliance, and disagreements over how to address some states’ breaches of their commitments ...
