Understanding International Art Markets: Robertson, Iain ...

The art market is the marketplace of buyers and sellers trading in commodities, services, and works of art. The art market operates in an economic model that considers more than supply and

demand: it is a hybrid type of prediction market where art is bought and sold for values based not only on a work's perceived cultural value, but on both its past monetary value as well as its predicted future value. The market has been described as one where producers don't make work primarily for sale, where
