Under the Sign of Saturn Farrar, Straus and Giroux

This third essay collection by America's leading essayist brings together her most important critical writing from 1972 to 1980, in which she explores some of the most influential artists and thinkers of our time.

Under the Sign of Saturn Vintage

In her most recent collection of essays, "one of America's foremost critics" (Washington Post) discusses the relationship between moral and esthetic ideas.

Im Zeichen des Saturn (Under the sign of Saturn, dt.) (Essays)

Born Under Saturn New York Review of Books

A rare art history classic that The New York Times calls a “delightful, scholarly and gossipy romp through the character and conduct of artists from antiquity to the French Revolution.” Born Under Saturn is a classic work of scholarship written with a light and winning touch. Margot and Rudolf Wittkower explore the history of the familiar idea that artistic inspiration is a form of madness, a madness directly expressed in artists’ unhappy and eccentric lives. This idea of the alienated artist, the Wittkowers demonstrate, comes into its own in the Renaissance, as part of the new bid by visual artists to distinguish themselves from craftsmen, with whom they were then lumped together. Where the skilled artisan had worked under the sign of light-fingered Mercury, the ambitious artist identified himself with the mysterious and brooding Saturn. Alienation, in effect, was a rung by which artists sought to climb the social ladder. As to the reputed madness of artists—well, some have been as mad as hatters, some as tough-minded as the shrewdest businessmen, and many others wildly and willfully eccentric but hardly crazy. What is certain is that no book presents such a splendid compendium of information about artists’ lives, from the early Renaissance to the beginning of the Romantic era, as Born Under Saturn. The Wittkowers have read everything and have countless anecdotes to relate: about artists famous and infamous; about suicide, celibacy, wantonness, weird hobbies, and whatnot. These make Born Under Saturn a comprehensive, quirky, and endlessly diverting resource for students of history and lovers of the arts. “This book is fascinating to read because of the abundant quotations which bring to life so many remarkable individuals.”–The New York Review of Books

Under the Sign of Saturn

The Rings of Saturn New Directions Publishing

"The book is like a dream you want to last forever" (Roberta Silman, The New York Times Book Review), now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne’s skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt’s "Anatomy

Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald’s The Emigrants (New Directions, 1996) was hailed by Susan Sontag as an “astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims The Rings of Saturn "an even more inventive work than its predecessor, The Emigrants."

Under the sign of saturn

Susan Sontag: Later Essays (LOA #292) Library of America

An unprecedented collection of the controversial later writings of the greatest and most provocative critic of our time. Susan Sontag was the most influential critic of her time. This second volume in Library of America's definitive Sontag edition gathers all the collected essays and speeches from her last quarter-century, brilliant works whose subjects, from the AIDS epidemic, 9/11, the Iraq war, and the perverse allure of Fascism to painting, dance, music, film, and scintillating literary portraits of such writers as Walter Benjamin, Roland Barthes, Antonin Artaud, Machado de Assis, Jorge Luis Borges, Nadine Gordimer, Joseph Brodsky, W. G. Sebald, Marina Tsvetayeva, and Robert Walser, bear enduring witness to passionate curiosity and expansive intellect. She brings to every subject an unwavering focus and intensity, and a deep commitment to "extending our sense of what a human life can be," as she said on accepting the Jerusalem Prize in 2000. An account of her 1993 residence in war-torn Sarajevo to stage a production of Waiting for Godot becomes a meditation on the meaning of culture: "Culture, serious culture, is an expression of human dignity-which is what people in Sarajevo feel they have lost." AIDS and Its Metaphors marks a further development of the central ideas of her classic Illness as Metaphor, while Regarding the Pain of Others explores eloquently the troubling moral issues surrounding photographic depictions of violence, cruelty, and atrocity. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation’s literary heritage by publishing, and keeping permanently in print, America’s best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Alice in Bed Farrar, Straus and Giroux

Alice in Bed is a free dramatic fantasy which merges the life of Alice James, the brilliant sister of William and Henry James, with the heroine of Lewis Carroll's Alice in Wonderland. It is a play about the anguish and grief and rage of women; and about the triumphs and limitations of the imagination.

Saturn Tor Books

Second in size only to Jupiter, bigger than a thousand Earths but light enough to float in water, home of crushing gravity and delicate, seemingly impossible rings, it dazzles and attracts us: SATURN Earth groans under the thumb of fundamentalist political regimes. Crisis after crisis has given authoritarians the upper hand. Freedom and opportunity exist in space, for those with the nerve and skill to run the risks. Now the governments of Earth are encouraging many of their most incorrigible dissidents to join a great ark on a one-way expedition, twice Jupiter's distance from the Sun, to Saturn, the ringed planet that baffled Galileo and has fascinated astronomers ever since. But humans will be human, on Earth or in the heavens-so amidst the idealism permeating Space Habitat Goddard are many individuals with long-term schemes, each awaiting the tight moment. And hidden from them is the greatest secret of all, the real purpose of this expedition, known to only a few.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Under Saturn's Shadow

Saturn was the Roman god who ate his children to stop them from usurping his power. Men have been psychologically and spiritually wounded by this legacy. Hollis offers a rich perspective on the secrets men carry in their hearts.

Saturn's Children Penguin

Sometime in the twenty-third century, humanity went extinct, leaving only androids behind to fulfill humanity’s dreams. And, having learned well from their long-dead masters, they’ve established a hierarchical society—one with humanoid aristo rulers at the top and slave-chipped workers at the bottom, performing the lowly tasks all androids were originally created to do. Designed as a concubine for a species that hasn’t existed for two hundred years, femmebot Freya Nakamichi-47—one of the last of her kind still functioning—accepts a job from a stranger to deliver a package from mercury to Mars. Unfortunately, she’s just made herself a moving target for some very powerful, very determined humanoids desperate to retrieve the package’s contents...

Child of Saturn Ace

The Isle of Celydonn, once plagued by the monstrous powers of the Wild Magic, is darkened by the shadows of a terrible conspiracy. Only the wizard's apprentice and one brave knight can stop the growing evil--through ancient magical secrets and the power of the sword.

Saturn In Transit Motilal Banarsidass Publishe

ABOUT THE BOOK:Saturn, god of the saturnine disposition, is popularly associated with doom and gloom. But Saturn in Transit reveals the planet's useful and developmental influence in our lives. Saturn assists the modern hero and heroine, during its

The Clouds of Saturn Jabberwocky Literary Agency, Inc.

When the sun flared out of control and boiled Earth's oceans, humanity took refuge in a place that few would have predicted. In the greatest migration in history, the entire human race took up residence among the towering clouds and deep clear-air canyons of Saturn's upper atmosphere. Having survived the traitor star, they returned to the all-too-human tradition of internecine strife. The new city-states of Saturn began to resemble those of ancient Greece, with one group of cities taking on the role of militaristic Sparta...

The Finger of Saturn William Morrow

Saturn's Return to New York Soho Press

When Mary Forrest receives the gift of an astrological reading for her birthday, she doesn't expect it to be the harbinger of her life's imminent upheaval. This is Mary's Saturn Return year, her twenty-ninth; the year that the planet Saturn returns to exact spot it was in when she was born. It presages a time of change, change that Mary is unprepared for. She must overcome intimacy and abandonment issues, resurrect her relationship with her ailing mother, and learn to trust the man that she loves.

Saturn Motilal Banarsidass

Titan Unveiled Princeton University Press

For twenty-five years following the Voyager mission, scientists speculated about Saturn's largest moon, a mysterious orb clouded in orange haze. Finally, in 2005, the Cassini-Huygens probe successfully parachuted down through Titan's atmosphere, all the while transmitting images and data. In the early 1980s, when the two Voyager spacecraft skimmed past Titan, Saturn's largest moon, they transmitted back enticing images of a mysterious world concealed in a seemingly impenetrable orange haze. Titan Unveiled is one of the first general interest books to reveal the startling new discoveries that have been made since the arrival of the Cassini-Huygens mission to Saturn and Titan. Ralph Lorenz and Jacqueline Mitton take readers behind the scenes of this mission. Launched in 1997, Cassini entered orbit around Saturn in summer 2004. Its formidable payload included the Huygens probe, which successfully parachuted down through Titan's atmosphere in early 2005, all the while transmitting images and data--and scientists were startled by what they saw. One of those researchers was Lorenz, who gives an insider's account of the scientific community's first close encounter with an alien landscape of liquid methane seas and turbulent orange skies. Amid the challenges and frayed nerves, new discoveries are made, including methane monsoons, equatorial sand seas, and Titan's polar hood. Lorenz and Mitton describe Titan as a world strikingly like Earth and tell how Titan may hold clues to the origins of life on our own planet and possibly to its presence on others. Generously illustrated with many stunning images, Titan Unveiled is essential reading for anyone interested in space exploration, planetary science, or astronomy. A new afterword brings readers up to date on Cassini's ongoing exploration of Titan, describing the many new discoveries made since 2006.

Saturn and Melancholy McGill-Queen's Press - MQUP

Saturn and Melancholy remains an iconic text in art history, intellectual history, and the study of culture, despite being long out of print in English. Rooted in the tradition established by Aby Warburg and the Warburg Library, this book has deeply influenced understandings of the interrelations between the humanities disciplines since its first publication in English in 1964. This new edition makes the original English text available for the first time in decades. Saturn and Melancholy offers an unparalleled inquiry into the origin and development of the philosophical and medical theories on which the ancient conception of the temperaments was based and discusses their connections to astrological and religious ideas. It also traces representations of melancholy in literature and the arts up to the sixteenth century, culminating in a landmark analysis of Dürer's most famous engraving, Melencolia I. This edition features Raymond Klibansky's additional introduction and bibliographical amendments for the German edition, as well as translations of source material and 155 original illustrations. An essay on the complex publication history of this pathbreaking project - which almost did not see the light of day - covers more than eighty years, including its more recent heritage. Making new a classic book that has been out of print for over four decades, this expanded edition presents fresh insights about Saturn and Melancholy and its legacy as a precursor to modern interdisciplinary studies.

Notes on Sontag Princeton University Press

Notes on Sontag is a frank, witty, and entertaining reflection on the work, influence, and personality of one of the "foremost interpreters of . . . our recent contemporary moment." Adopting Sontag's favorite form, a set of brief essays or notes that circle around a topic from different perspectives, renowned essayist Phillip Lopate considers the achievements and limitations of his tantalizing, daunting subject through what is fundamentally a conversation between two writers. Reactions to Sontag tend to be polarized, but Lopate's account of Sontag's significance to him and to the culture over which she loomed is neither hagiography nor hatchet job. Despite admiring and being inspired by her essays, he admits a persistent ambivalence about Sontag. Lopate also describes the figure she cut in person through a series of wry personal anecdotes of his encounters with her over the years. Setting out from middle-class California to invent herself as a European-style intellectual, Sontag raised the bar of critical discourse and offered up a model of a freethinking, imaginative, and sensual woman. But while crediting her successes, Lopate also looks at how her taste for aphorism and the radical high ground led her into exaggerations that could do violence to her own common sense, and how her ambition to be seen primarily as a novelist made her undervalue her brilliant essays. Honest yet sympathetic, Lopate's engaging evaluation reveals a Sontag who was both an original and very much a person of her time.

Cradle of Saturn Baen Books

Tired of having innovation stifled by cost-cutting bureaucrats, engineer Landen Keene dreams of emigrating to the Kronian colony among the moons of Saturn, until a gigantic protoplanet hurtling toward the sun threatens to obliterate Earth.

The People of Paper Houghton Mifflin Harcourt

Devastated by the abandonment of his wife, Federico de la Fe moves with his young daughter from Mexico to California, where he is unable to break free of feelings of oppression, encounters an unusual woman, and meets another heartbroken man. A first novel. Reprint.

Making and Unmaking of Francoist Kitsch Cinema Edinburgh University Press

This book examines five highly influential Francoist films produced from 1938 until 1964 and three later films by critically acclaimed directors Luis Buñuel, Guillermo del Toro, and Alex de la Iglesia that attempt to undermine Francoist aesthetics by re-imagining its visual and narrative clichés.

The Cassini-Huygens Visit to Saturn Springer

Cassini-Huygens was the most ambitious and successful space journey ever launched to the outer Solar System. This book examines all aspects of the journey: its conception and planning; the lengthy political processes needed to make it a reality; the engineering and development required to build the spacecraft; its 2.2-billion mile journey from Earth to the Ringed Planet and the amazing discoveries from the mission. The author traces how the visions of a few brilliant scientists matured, gained popularity and eventually became a reality. Innovative technical leaps were necessary to assemble such a multifaceted spacecraft and reliably operate it while it orbited a planet so far from our own. The Cassini-Huygens spacecraft design evolved from other deep space efforts, most notably the Galileo mission to Jupiter, enabling the voluminous, paradigm-shifting scientific data collected by the spacecraft. Some of these discoveries are absolute gems. A small satellite that scientists once thought of as a dead piece of rock turned out to contain a warm underground sea that could conceivably harbor life. And we now know that hiding under the mist of Saturn’s largest moon, Titan, is a world with lakes, fluvial channels, and dunes hauntingly reminiscent of those on our own planet, except that on Titan, it’s not water that fills those lakes but hydrocarbons. These and other breakthroughs illustrate why the Cassini-Huygens mission will be remembered as one of greatest voyages of discovery ever made.

The Little Book of Saturn *Red Wheel/Weiser*

The Little Book of Saturn, a smart, friendly introduction to the astrological Saturn, is a book for curious readers who know there is more to astrology than their sun signs. Saturn has traditionally been considered the planet of challenges, but the life lessons that this stern planet brings are necessary for personal growth. This book is suitable for beginners and experts alike. It discusses the influence of Saturn on the natal horoscope, focusing on Saturn in its various places in the birth chart and exploring the various transits, especially the return(s), which brings with it a period of transition that is often feared, but Aliza Einhorn shows you how to understand and navigate them with confidence.

Where the Stress Falls *Farrar, Straus and Giroux*

Susan Sontag has said that her earliest idea of what a writer should be was "someone who is interested in everything." Thirty-five years after her first collection of essays, the now classic Against Interpretation, our most important essayist has chosen more than forty longer and shorter pieces from the last two decades that illustrate a deeply felt, kaleidoscopic array of interests, passions, observations, and ideas. "Reading" offers ardent, freewheeling considerations of talismanic writers from her own private canon, such as Marina Tsvetaeva, Randall Jarrell, Roland Barthes, Machado de Assis, W. G. Sebald, Borges, and Elizabeth Hardwick. "Seeing" is a series of luminous and incisive encounters with film, dance, photography, painting, opera, and theatre. And in the final section, "There and Here," Sontag explores some of her own commitments: to the work (and activism) of conscience, to the concreteness of historical understanding, and to the vocation of the writer. Where the Stress Falls records a great American writer's urgent engagement with some of the most significant aesthetic and moral issues of the late twentieth century, and provides a brilliant and clear-eyed appraisal of what is at stake, in this new century, in the survival of that inheritance.

On the Stability of the Motion of Saturn's Rings

Titan *Independently Published*

Fynn learns the Kin's secret when he's shoved into a stasis pod.He's not going back to college - he's going with his father's cult to settle on Saturn's moon Titan. Half a solar system away, immensely cold, under a thick atmosphere of nitorgen and hydrocarbon haze. Who'd be crazy enough to colonize this moon?

Saturn's Child *Putnam Publishing Group*

Tetrock, an ambitious young leader of the alien Tetrok, falls in love with Nyota, the human commanding officer of the starship Dragon's Egg, but their feelings for each other could be threatened by the mission they must accomplish.

Saturn *Weiser Books*

This classic astrology text, revered by beginners and professional astrologers alike, is now available in a Weiser Classics edition. “The most important single contribution of twentieth-century astrology is that astrology is not a map of one’s fixed destiny but is a potential map of the unfolding of the authentic, higher self.” —Robert Hand, from the foreword Saturn’s darker persona is recognized universally in myth and fairytale. In this classic astrology text, renowned astrologer and Jungian analyst Liz Greene offers a fresh perspective on how to handle the influence of this much-maligned astrological symbol. In Saturn, Greene shows us how the frustrating experiences connected to this planet can be turned into opportunities for greater insight and meaning in our lives. Saturn, she says, symbolizes a psychic process—one that allows us to utilize the experience of pain for self-discovery and a more fulfilling and complete life. Greene retraces Saturn’s character through sign, house, aspect, and synastry in a brilliant analysis that reveals his other face: that of the initiator who, for the price of our honesty with ourselves, offers us greater consciousness, self-understanding, and, eventually, freedom.

Inside Ethics *Harvard University Press*

Alice Crary offers a transformative account of moral thought about human beings and animals. Instead of assuming that the world places no demands on our moral imagination, she underscores the urgency of treating the exercise of moral imagination as necessary for arriving at an adequate

world-guided understanding of human beings and animals.

Saturn Could Sail *Simon and Schuster*

"A book of fun facts about planets, stars, space ships, and more!"--

You Were Born for This *HarperCollins*

NEW YORK TIMES BESTSELLER From beloved astrologer Chani Nicholas comes an essential guide for radical self-acceptance. Your weekly horoscope is merely one crumb of astrology’s cake. In her first book You Were Born For This, Chani shows how your birth chart—a snapshot of the sky at the moment you took your first breath—reveals your unique talents, challenges, and opportunities. Fortified with this knowledge, you can live out the life you were born to. Marrying the historic traditions of astrology with a modern approach, You Were Born for This explains the key components of your birth chart in an easy to use, choose your own adventure style. With journal prompts, reflection questions, and affirmations personal to your astrological makeup, this book guides you along the path your chart has laid out for you. Chani makes the wisdom of your birth chart accessible with three foundational keys: The First Key: Your Sun (Your Life’s Purpose) The Second Key: Your Moon (Your Physical and Emotional Needs) The Third Key: Your Ascendant and Its Ruler (Your Motivation for Life and the Steersperson of Your Ship) Astrology is not therapy, but it is therapeutic. In a world in which we are taught to look outside of ourselves for validation, You Were Born for This brings us inward to commit to ourselves and our life’s purpose.

Death Kit *Farrar, Straus and Giroux*

First published in 1967, Death Kit--Susan Sontag's second novel--is a classic of modern fiction. Blending realism and dream, it offers a passionate exploration of the recesses of the American conscience.

Ringmakers of Saturn

Saturn *Motilal Banarsidass*

General Book of the Tarot *BEYOND BOOKS HUB*

This book was one of the first to try to match the Tarot cards with astrology. Beginning with a theoretical section, it then discusses each card. Another feature of this book is a comparison of characteristics attributed to each card by some of the previous writers such as Waite and Papus. Includes images of the Rider-Waite-Smith deck of each card.

One-Way Street and Other Writings *Penguin UK*

Walter Benjamin was one of the most original writers and thinkers of the 20th century. This new selection brings together Benjamin's major works, including 'One-Way Street', his dreamlike, aphoristic observations of urban life in Weimar Germany.

Postcolonial Astrology *North Atlantic Books*

Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmaskes the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism, used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.
