Payment For Environmental Services In

Payments for ecosystem services, also known as payments for environmental services, are incentives offered to farmers or landowners in exchange for managing their land to provide some sort of ecological service. They have been defined as "a transparent system for the additional provision of environmental services through conditional payments to voluntary providers". These programmes promote the conservation of natural resources in the marketplace. Ecosystem services have no standardized definiti

Payment for ecosystem services - Wikipedia

Payments for environmental services (also known as payments for ecosystem services or PES), are payments to farmers or landowners who have agreed to take certain actions to manage their land or watersheds to provide an ecological service. As the payments provide incentives to land owners and managers, PES is a market-based mechanism, similar to subsidies and taxes, to encourage the conservation of natural resources.

Markets and payments for environmental services ...

Payments for environmental services (PES) refers to a systemwhereby beneficiaries of environmental services enter into voluntary agreements with land managers to support the adoption of practices expected to result in an increased supply of positive environmental externalities over a baseline, or “business-as-usual”, case.

Payments for environmental services

Payments for environmental services (PES) schemes are widely promoted to secure ecosystem services through incentives to the owners of land from which they are derived. Furthermore, they are increasingly proposed to foster conservation and poverty alleviation in the global South.
