Creating A Learning Society A

In *Creating a Learning Society*, Joseph E. Stiglitz and Bruce C. Greenwald cast light on the significance of this insight for economic theory and policy. Taking as a starting point Kenneth J. Arrow's 1962 paper "Learning by Doing," they explain why the production of knowledge differs from that of other goods and why market economies alone typically do not produce and transmit knowledge efficiently.

Creating a Learning Society | Columbia University Press

Since its publication *Creating a Learning Society* has served as an effective tool for those who advocate government policies to advance science and technology. It shows persuasively how enormous increases in our standard of living have been the result of learning how to learn, and it explains how

advanced and developing countries alike can model a new learning economy on this example.

Creating a Learning Society on Apple Books

Learning society is an educational philosophy advocated by the OECD and UNESCO that positions education as the key to a nation's economic development, and holds that education should extend beyond formal learning (based in traditional educational institutions – schools, universities etc.) into informal learning centres to support a knowledge economy (known as a “world education culture”).

Learning society - Wikipedia

In *Creating a Learning Society*, Joseph E. Stiglitz and Bruce C. Greenwald spell out the implications of this insight for both economic theory and policy. Taking as a starting point Kenneth J. Arrow's 1962 paper "Learning by Doing", they explain why the production of knowledge differs

from that of other goods and why market economies alone are typically not efficient in the production and transmission of knowledge.
