Liability-driven investments are commonly used in defined-benefit pension plans or other fixed-income plans to cover current and future liabilities through asset acquisitions. The general approach...

Liability Driven Investment (LDI) Definition

An Overview of Dynamic Liability Driven Investing for Defined Benefit Pension Plans Pension plans have used a variety of Liability Driven Investment (LDI) strategies for years. While an indispensable tool in our mind, traditional LDI strategies address only the

An Overview of Dynamic Liability Driven Investing for ...

The standard paradigm for pension fund investments, which used to be firmly grounded around one overarching foundational concept of the policy portfolio, is slowly but surely being replaced by a new, more modern, investment paradigm known as the dynamic liability-driven investing (DLDI) paradigm.

Dynamic Liability-Driven Investing Strategies: The ...

In a nutshell, the main insight from this research programme is to emphasise the benefits of dynamic forms of liability-driven investment strategies, which imply that the split between the risky performance-seeking component and the safe liability-hedging component should evolve over time as a function of changes in market conditions and also as a function of prudential risk budgets defined by the regulators, who have increased their focus in terms of respecting minimum funding ratio levels.

Dynamic Liability-Driven Investing Strategies: The ...

Dynamic LDI has seen even better results than LDI Over long timeframes, the dynamic LDI approach has added excess investment returns relative to both gilt and swap measures of liabilities. For example, over a seven-year timeframe, outperformance has been around 7% above gilts and 40% above swaps.

Dynamic LDI* provides solace for UK DB pension schemes in ...

In its broadest sense, LDI is an approach to investment in which all or part of the strategy is designed to match a scheme's liabilities. Within this context, LDI is also used as a specific term to describe a range of investment approaches that are designed to help schemes reduce the volatility of their funding level by addressing interest rate and inflation risks.

An introduction to Liability Driven Investment - Briefings ...

Liability-Driven Investment A liability-driven investment (LDI) solution from Legal & General Investment Management enables you to retain your allocation to growth, while reducing risk. With unrivalled scale and experience in the UK pension market, Legal & General Investment Management offers pooled and segregated investment solutions that are specifically designed to hedge interest rate and inflation risk.

Liability-Driven Investment | LGIM Institutional

Liability Driven Investment (LDI) is a popular and core risk management tool for pension schemes and insurance companies. Over the last ten years it has proven to be a successful strategy for reducing risk and funding level volatility.

Liability Driven Investment

Broadly speaking, the main unrewarded risks pension schemes face are interest rate risk and inflation risk. Liability Driven Investment products are designed to minimise a pension scheme's exposure to these unrewarded risks.

Liability Driven Investment Explained - Global

Liability-driven investment policies and asset management decisions are those largely determined by the sum of current and future liabilities attached to the investor, be it a household or an institution. As it purports to associate constantly both sides of the balance sheet in the investment process, it has been called a "holistic" investment methodology. In essence, the liability-driven investment strategy is an investment strategy of a company or individual based on the cash flows needed to f

Liability-driven investment strategy - Wikipedia

White Paper Pension plans have used Liability Driven Investment (LDI) strategies for years. In this brief we introduce a more comprehensive platform: Dynamic LDI. The improvement Dynamic LDI offers stems from the relationship between funded status and asset allocation.

Dynamic Liability Driven Investing | NISA Investment ...

Liability Driven Investing (LDI) is an investment framework that focuses on managing pension assets in relation to pension liabilities. LDI is not new, as insurance companies have been using LDI for

years under the name of Asset Liability Management. What is new is that defined benefit plan sponsors now have significant motivation to manage

Liability Driven Investment A Dynamic Hedging Strategy

Liability-driven investing seeks to better manage a plan’s liability risk, while also offering diversified sources of return. LDI recognises that meeting or exceeding a scheme’s future cash payments is the true measure of investment success. It is better to deliver pension fund liabilities than outperform a peer group or benchmark.

Managing liability risk | Features | IPE

Liability-driven investment strategies contain certain risks that prospective investors should evaluate and understand prior to making a decision to invest. These risks may include, but are not limited to; interest rate risk, counter party risk, liquidity risk and leverage risk.
