Bruker - cable.vanhensy.com

Explosives trace detectors are explosive detection equipment able to detect explosives of small magnitude. The detection is accomplished by sampling non-visible "trace" amounts of particulates. Devices similar to ETDs are also used to detect narcotics. The equipment is used mainly in airports and other vulnerable areas considered susceptible to acts of unlawful interference. Dr. Stephen Lee is credited with inventing the Fido explosives

detector while working at the Army Research Laboratory.
