English for Academic Research: Grammar Exercises *Springer Science & Business Media*

This book is based on a study of referees' reports and letters from journal editors on reasons why papers written by non-native researchers are rejected due to problems with English grammar. It draws on English-related errors from around 5000 papers written by non-native authors, several hundred emails, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. The exercises include the following areas: active vs passive, use of we articles (a/an, the, zero) and quantifiers (some, any, few etc) conditionals and modals countable and uncountable nouns genitive infinitive vs -ing form numbers, acronyms, abbreviations relative clauses and which vs that tenses (e.g. simple present, simple past, present perfect) word order Exercise types are repeated for different contexts. For example, the difference between the simple present, present perfect and simple past is tested for use in papers, referees' reports, and emails of various types. Exercises in Classical Ring Theory *Springer Science & Business Media*

Based in large part on the comprehensive "First Course in Ring Theory" by the same author, this book provides a comprehensive set of problems and solutions in ring theory that will serve not only as a teaching aid to instructors using that book, but also for students, who will see how ring theory theorems are applied to solving ring-theoretic problems and how good proofs are written. The author demonstrates that problem-solving is a lively process: in "Comments" following many solutions he discusses what happens if a hypothesis is removed, whether the exercise can be further generalized, what would be a concrete example for the exercise, and so forth. The book is thus much more than a solution manual.

Indian Clubs, Dumb-Bells, and Sword Exercises *Read Books Ltd*

Indian clubs', or 'Iranian clubs' belong to a category of exercise equipment used for developing strength, and in juggling. In appearance, they resemble elongated bowling-pins, and are commonly made out of wood. They come in all shapes and sizes however, ranging from a few pounds each, to fifty pounds, and are commonly swung in certain patterns as part of exercise programs. They were often used in class formats, predominantly in Iran, where members would perform choreographed routines, led by an instructor; remarkably similar to modern aerobics classes. This work is a reprint of a classic publication on the use of 'Indian Clubs' and along with a brand new introduction, includes a series of exercises to help you get in shape the old-fashioned way.

Ukrainian for Speakers of English Written Exercises

Introductory and Intermediate Levels *Brush Education*
Ukrainian for Speakers of English is intended for individuals who have no knowledge of Ukrainian. It is suitable for university students, senior high school students, and adult learners in a home study situation. All of the material is presented from the point of view of a student who knows how to speak English, but who may not know the formal rules of English grammar. Before a new point in Ukrainian grammar is introduced, students are first reminded about what they know, either formally or informally, about a similar structure in English. The grammar explanations in this text are brief and simple; they convey only as much information as a student can be expected to assimilate in the early stages of learning a second language. Numerous examples, summaries, and charts are included to assist the learner. The systematic organization of the material ensures that students acquire the ability to use the language competently. Successful completion of the program lays the foundation for further formal and informal acquisition of the language, and for the study and enjoyment of Ukrainian literature.
