Metrology is the scientific study of measurement. It establishes a common understanding of units, crucial in linking human activities. Modern metrology has its roots in the French Revolution's political motivation to standardise units in France, when a length standard taken from a natural source was proposed. This led to the creation of the decimal-based metric system in 1795, establishing a set of standards for other types of measurements. Several other

countries adopted the metric system betwe

Based on this solid knowledge and experience, we offer laboratories and test facilities throughout the Nordic region the best combination of high quality test instruments and measuring equipment that lasts for many years.

Intermark Metrology - Instruments for testing, calibration ...

In measurement technology and metrology, calibration is the comparison

of measurement values delivered by a device under test with those of a calibration standard of known accuracy. Such a standard could be another measurement device of known accuracy, a device generating the quantity to be measured such as a voltage, a sound tone, or a physical artifact, such as a meter ruler. The outcome of the comparison can result in one of the following: no significant error being noted on the device under

Calibration - Wikipedia

MEASUREMENT SERVICES. API Measurement Services offer on-site dimensional inspection services for prototype, 1st article and production measurements. Our suite of measurement services include reverse

engineering, 3D modelling, inspection and alignments, machine tool and robot calibration services performed in accordance with ISO 17025 certification. Manufactured parts that are too large to be moved from the manufacturing floor and inspected in a metrology laboratory need to be measured in situ.

Measurement - API Measurement and Calibration Services ...

Dimensional Calibration is testing the performance output of measuring instruments against a measurement standard to certify that the item produces results which meet or exceed the specific criteria of that standard. The details of these findings are logged and the results are prepared on a calibration certificate.
