Non Medical Influences Upon Medical

This bibliography presents studies of nonmedical factors (patient, clinician, and practice variables) that influence medical decision-making. Those factors include age, gender and presentational style of the patient; age, years in practice and attitudes of the clinician; and geographical location and list size of the practice. The authors separate such factors into two categories.

Non-Medical Influences upon Medical Decision-Making and ...

Abstract. Background: The influence of non-medical factors on physicians' decision-making has been documented in many observational studies, but rarely in an experimental setting capable of demonstrating cause and effect. We conducted a controlled factorial experiment to assess the influence of non-medical factors on the diagnostic and treatment decisions made by practitioners of internal medicine in two common medical situations.

Non-medical influences upon medical decision-making and ...

These HCPs include nurses, pharmacists, radiographers, physiotherapists, podiatrists, chiroprodists and optometrists. After a period of specific prescribing training these HCPs are often referred to as non-medical prescribers (NMPs). There has been a limited amount of research that has investigated

the influences on the prescribing behaviour of NMPs.
