The China Study Book Summary

Open Mind: The End of Copycat China

The End Of Cheap China

The End of Cheap China is a detailed look at the rise of China, and how it will affect the global marketplace. A thorough exploration of the changes taking place in the Chinese economy, the book explains how much of the Western consumerist culture is built on the back of cheap Chinese factory labor, and warns that the era is coming to a close.

The End of Cheap China: Economic and Cultural Trends That ...

Despite what the title "The End of Cheap China" suggests, for the most part, this book doesn't concern the rather clear fact that China will not remain a low cost producing country for much longer. Labor costs are rising dramatically, partly due to inflation, and partly due to labor shortages. Nobody wants to work in factories anymore.

The End of Cheap China is anything but naive, interweaving Rein’s anecdotes of personal interactions with statistics and case studies. Rein has been in China long enough to see beyond the physical changes to observe social shifts and how they impact individuals.

Book Review: “The End of Cheap China” by Shaun Rein ...

The End of Cheap China shows: How rising labor and real estate costs are forcing manufacturers of cheap Chinese products to close, relocate, or

move up the value stream How a restructuring economy moving away from exports to domestic consumption, and rising incomes will create opportunities for foreign brands to sell products in China rather than just producing there How Chinese consumption will build pressure on the global commodities markets, causing both inflation and friction with other ...
