Philosophy Of Mind A Beginners

This is a very good book for those interested in the philosophy of mind. I am a Masters student and it has proven very useful for getting a grip on the basics. There are, however, some slightly better written and more detailed books out there e.g. John Heil's *Philosophy of Mind: A Contemporary Introduction*.

Topics discussed include dualism, behaviorism, the identity theory, functionalism, the computational theory of mind, connectionism, physicalism, mental causation, and consciousness.

Philosophy of Mind - Ian Ravenscroft - Oxford University Press

A very interesting introduction to the philosophy of mind. I recommend pairing it with a beginner's level book from a materialist perspective such as Dennett's *Consciousness Explained*, or *The Mind's I* (edited by Douglas Hofstadter). For a book purporting to be an introduction to the subject,

Philosophy of Mind is more partisan than one might expect.

I find Philosophy 101 to be an alluring introduction to the history of great philosophers and their ideas, presented in chronological order.. As with other beginner books on philosophy, author Paul Kleinman adopts simple words to convey complex ideas. In addition, he smartly uses bullet points to break down major philosophical arguments into their core aspects.

Philosophy of Mind : A Beginner's Guide by Ian Ravenscroft ...

This book is a wonderful introduction to the philosophy of mind from a broadly dualist perspective. Along the way, Feser surveys such topics as qualia, thought, intentionality, and reason. What makes this book so valuable is the way Feser is able to explain somewhat technical issues in terms an interested layperson can understand, without sacrificing any of the intellectual weight of the discipline.
