Educating Nurses 10th Tenth Edition

An understanding of the ways in which work coordination is achieved in practice is essential to the development of effective CSCW technologies. However, previous studies are limited in their focus on small, self-contained work groups. In this analysis of work coordination in a hospital context, a broader perspective was adopted, allowing examination of activities across time, group and location.

The coordination of work activities: Cooperation and ...

But, overall, this 10th edition is similar in structure to the 9th edition that reflects the essential character of the text since the beginning. That essential character involves blending the teaching of big-think issues with the teaching of building blocks.
