20 Easy Ways to Reduce Your Food Waste

There was a time when food tracking was treated like a given, a necessary tool for anyone wanting to lose weight or better their health. Thankfully, there's more nuance to that conversation now. The fact is, tracking your food can be a useful exercise for gaining more insight into what you're putting in your body.

Tracking Your Food: When, Why and How | Mark's Daily Apple

You see, when we talk about food waste, we don't only mean what we, consumers, throw away, but also what stores don't sell and then discard; what restaurants and hotels waste and what manufacturers and farmers lose along the way. There is also a difference in wastage between industrialized and developing countries.

What is wasted when we waste food?

Food is lost or wasted throughout the supply chain. Food that gets spilled or spoilt before harvesting – or when being stored, packed or transported – is known as food loss. Food loss can be caused by weather or insects, or by high temperatures and poor storage. Food that is fit for human consumption, but isn't eaten, is called food waste.
