The graph on this page shows the number of deaths for each age group in England and Wales for that same week (ending 3 April 2020 – the most recent weekly data released by the ONS). These deaths are split into those where coronavirus was mentioned on the death certificate – the orange bars – and those that did not – the grey bars.

understanding the statistics - Age UK

Among those under 30, the number of married men and women who cheat is about the same (10 percent versus 11 percent). However, as we age, the gap between how many men and how many women cheat grows. Sure, you might be thinking men in mid-life are most likely to stray, but it's actually a bit older than that.

Infants' and children's cycles contain a relatively large amount of slow-wave (N3) sleep—the non-dreaming, restorative kind that is also known as deep sleep. In early adulthood the amount of slow-wave sleep begins to decline. Elderly adults typically have relatively short periods of slow-wave sleep and fewer of them.

Changes in Sleep with Age | Healthy Sleep

To improve survivability, most wave devices since then have opted to reduce energy take. For example, in the floating segmented Pelamis “sea snake” design, the nose of the long articulated device is tethered to the sea bed, so that waves hit it head on and move down its flanks, causing the “snake” segments to rise and fall, this motion driving air pumps and turbines.
