profound change is yet to come. The IoT Collaborative (IOTC), a partnership between Case Western Reserve University and Cleveland State University, is leading this change by serving as a collaborative, engaged and socially responsible partner in the development and advancement of IoT.

IOT Collaborative

Abstract: The collaborative Internet of Things (C-IoT) is an emerging paradigm that involves many communities with the idea of cooperating in data gathering and service sharing. Many fields of application, such as smart cities and environmental monitoring, use the concept of crowdsensing in order to produce the amount

of data that such Internet of Things (IoT) scenarios need in order to be pervasive.
