conscious sedation | Search results page 1 | Evidence ...

Conscious sedation for dental treatment may be provided by a team that includes a dedicated sedationist or operator-sedationist (i.e. dental professional assuming the dual responsibility of sedating the patient as well as providing dental treatment).

Conscious Sedation in Dentistry - SDCEP

Moderate sedation/analgesia may be referred to as moderate sedation, conscious sedation, nurse-administered procedural sedation, nurse-administered propofol sedation, or procedural sedation and analgesia. The term moderate sedation/analgesia is used throughout this document in the recommendations and activities. Other terms may be seen in the rationales if the cited literature refers to moderate sedation/analgesia by another term.

Moderate Sedation/Analgesia | AORN eGuidelines+

Conscious Sedation is a vital part of modern dentistry enabling a huge number of patients with anxieties and phobias to access care they otherwise could not tolerate. In the UK this involves the administration of sedative drugs which patients may take orally, inhale or have injected. As well as removing anxiety these drugs can have many significant side effects which the dental team must be able to recognise and manage in a calm and effective way.

Dental Sedation Nursing | NEBDN

These guidelines specifically apply to the level of sedation corresponding to moderate sedation/analgesia (previously called conscious sedation), which is defined as a drug-induced depression of consciousness during which patients respond purposefully † to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway when spontaneous ventilation is adequate.

Practice Guidelines for Moderate Procedural Sedation and ...

As you can see, the sedation dental nurse plays a major role in dental sedation. A good sedation nurse should be caring, with a positive attitude, good communication skills and the desire to continue their professional development. With changing GDC standards, guidelines and legislation, it is essential that their knowledge and skills are kept up to date. Click here for inhalation sedation training courses.

The role of a sedation nurse - Dental Nurse Network

Specifically trained Registered Nurses may assist in the administration of conscious sedation. The AANA (American Association of Nurse Anesthetists) further states “that the provider who monitors the patient receiving conscious sedation should have no other responsibilities during the procedure and should remain with the patient at all times during the procedure.”
2

Management of Patients Receiving Mild, Moderate or Deep ...

One RN in the pre-procedure area to perform patient care and assessment prior to intravenous (IV) sedation and anesthesia. 2.
One RN in each procedure room to assess and monitor the patient during IV sedation. When an anesthesia provider is administering the sedation, the RN will remain to provide continuity of care and assist the healthcare team.
