Transformations In American Legal History

During his career at Harvard, Morton Horwitz changed the questions legal historians ask. The Transformation of American Law, 1780-1860 (1977) disclosed the many ways that judge-made law favored commercial and property interests and remade law to promote economic growth. The Transformation of American Law, 1870-1960 (1992) continued that project, with a focus on ideas that reshaped law as we struggled for

objective and neutral legal responses to our country's crises.

Awarded the Bancroft Prize in American History in 1978, Morton J. Horwitz' first book, *The Transformation of American Law, 1780-1860* (1977) said a lot about the relationship of law to the economy; his second, *The Transformation of American Law, 1870-1960* (1992) focused on jurisprudence. So not surprisingly a lot of the essays relate to one of those broad areas (more to the latter than the former).

A lot of the essays are focused around assessments of Horwitz' work -- for instance, William Fisher's foreword talks about the continuity between questions that Horwitz addressed in *Transformation of American Law, 1780-1860* (1977) and *Transformation of American Law, 1870-1960* (1992). Most people have seen those two books as rather different -- the first interested more in economic issues and common law; the second more jurisprudence and constitutional law.

The great breakpoint came after 1790 when the law was slowly transformed to favor economic growth and development. The courts spurred economic competition instead of circumscribing it.
