Aging is a process that eventually affects all of us. We can all point out the signs of aging like wrinkles, getting shorter, and gray hair. However, how and why we age is still mostly unknown to the scientists who study the process of aging. There are two current theories of aging. The first is that our genes determine how long we live.

Aging. Medically reviewed by Drugs.com. Last updated on Jan 27, 2020. Health Guide; What is Aging? We all know the obvious signs of aging: wrinkles, gray hair, a slightly stooped posture, perhaps some "senior moments" of forgetfulness. But why do those things happen? What is aging? Each of us is made up of cells—13 trillion of them.
