In addition to developing a standard for cavity preparations, G.V.
 Black also experimented with various mixtures of amalgam. After
 years of experimentation, Black published his balanced amalgam
 formula in 1895. This formula and its variations quickly became
 the gold standard and would remain such for almost 70 years.

It is over 100 years since G V black gathered together most of the knowledge then current on the caries process and set clear parameters for the discipline of operative dentistry. His four-volume treatise set standards that were relevant for the times and, in fact, were so well described that they remained dominant in this discipline until quite recently.
