Google developer documentation style guide | Google Developers

Documentation. This document serves as the complete definition of Google's Android coding standards for source code in the Kotlin Programming Language. A Kotlin source file is described as being in Google Android Style if and only if it adheres to the rules herein. Like other programming style guides, the issues covered span not only aesthetic issues of formatting, but other types of conventions or coding standards as well.

Google has finally produced a style guide for Android applications - something that it has been visibly lacking as demonstrated by the unstylishness of many of its apps. The style guide has arrived in the form of a website, Android Design , an integral part of the Android Developer site, which has been created specifically to help developers in the creation of applications for Android 4 (Ice ...

Google Style Guide for Android Apps

The HIDL code style resembles C++ code in the Android framework, with 4-space indents and mixed-case filenames. Package declarations, imports, and docstrings are similar to those in Java, with slight modifications. The following examples for IFoo.hal and types.hal illustrate HIDL code styles and provide quick links to details on each style (IFooClientCallback.hal, IBar.hal, and IBaz.hal have been omitted).
