Perspective Taking in Language | Frontiers Research Topic

Perspective-taking is the act of perceiving a situation or understanding a concept from an alternative point of view, such as that of another individual. There is a vast amount of scientific literature that has looked at perspective-taking and suggests that it is crucial to human development, and that it may lead to a

variety of beneficial outcomes. Perspective-taking is related to other theories and concepts including theory of mind and empathy. Both theory and research have suggested ages when

Perspective-taking - Wikipedia

Language is an inherently social behavior. In this paper, we bring together two research areas that typically occupy distinct sections of the literature: perspective taking in spatial language (whether people represent a scene from their own or a different spatial perspective), and perspective taking in action language (the extent to which they simulate an action as though they were performing ...
