Got a Service engine soon light, turned off, rechecked oil level, it was just under the minimum level, added oil to midrange on dipstick, cranked back up and light is staying on. No audible alarm though. Am wondering if I added too much oil, or does it take a few cycles of on off to clear the light like my truck. The oil

pressure was good and ...

Close the doors, roll up the windows and turn on the OBD II scanner tool. Put the key into the ignition and turn it to "on," but take care not to start the engine. Turning the vehicle on will start the electrical system which will power the OBD II scanner tool and allow it to do its job. The engine needs to remain off for the scanner to work.
