Nursing Care of Children and Young People with Chronic Illness is a comprehensive, up-to-date resource for nursing students and practitioners on the context, theory and practice of assessing health needs, and the delivery of holistic care and services within a variety of care settings, to enable them to meet the changing needs of children and young people with chronic illnesses and diseases, and their families.

Nursing Care of Children and Young People with Chronic ...

Congenital heart disease refers to an anatomical or physiological defect of the heart that is present at birth. Over the past three decades there have been significant advances in surgical, medical and nursing care for infants and children requiring cardiac surgery for congenital heart disease. This has meant that the number of adults with moderate and complex congenital heart disease now exceeds

the number of children with the disease.
