The Instant Composers Pool and Improvisation Beyond Jazz *Routledge*

The Instant Composers Pool and Improvisation Beyond Jazz contributes to the expansion and diversification of our understanding of the jazz tradition by describing the history and practice of one of the most important non-American jazz groups: The Instant Composers Pool, founded in Amsterdam in 1967. The Instant Composers Pool describes the meaning of "instant composition" from both a historical and ethnographic perspective. Historically, it details instant composition's emergence from the encounter between various overlapping transnational avant-gardes, including free jazz, serialism, experimental music, electronic music, and Fluxus. The author shows how the improvising musicians not only engaged with the cultural politics of ethnicity and race involved in the negotiation of the boundaries of jazz as a cultural practice, but transformed the meaning of music in society—particularly the nature of improvisation and performance. Ethnographically, The Instant Composers Pool encourages readers to reconsider the conceptual tools we use to describe music performance, improvisation, and creativity. It takes the practice of "instant composition" as an opportunity to reflect on music performance as a social practice, which is crucial not only for jazz studies, but for general music scholarship.

In this second edition, new profiles feature Teachers of Color who use technology extensively in their varied types of music teaching. This edition encourages readers to think about issues of inequity of social justice in music education technology and how teachers might begin to address those concerns. Also updated are sections about new standards that may guide music education technology practice, about distance and technology-enhanced learning during the global pandemic, and about ways to integrate technology in emerging contexts.

The Non-Jewish Jew

And Other Essays *Verso Books*

Essays on Judaism in the modern world, from philosophy and history to art and politics In these essays Deutscher speaks of the emotional heritage of the European Jew with a calm clear-sightedness. As a historian he writes without religious belief, but with a generous breadth of understanding; as a philosopher he writes of some of the great Jews of Europe: Spinoza, Heine, Marx, Trotsky, Luxemburg, and Freud. He explores the Jewish imagination through the painter Chagall. He writes of the Jews under Stalin and of the "remnants of a race" after Hitler, as well as of the Zionist ideal, of the establishment of the state of Israel, of the Six-Day War, and of the perils ahead.
