science and faith friends or foes

Collins first defines faith and science, shows their relation, and explains what claims each has concerning truth. Then he applies the biblical teaching on creation to the topics of "conflict" between faith and science, including the age of the earth, evolution, and miracles. He considers what it means to live in a created world.

Science and Faith?: Friends or Foes? eBook: Collins, C ...

I have faith in believing that, and I respect people who don't have faith. But I, I say, don't, don't put me in a box where I have to disregard all science in order to believe in God. I can have the science, and I can have God. And in fact, I think my understanding of the science only increases my faith in God.

Science as Friend. A very wide range of reasons could be cited for the mutually supportive relationship between science and Christianity. For example, Christianity has played a key role in the historical development of modern science. Furthermore, the Christian doctrine of creation, which inspired earlier generations of scientists, continues to provide a strong motivation for empirically-based 'truth-telling' in science.
