The menstrual cycle is a cyclic series of changes in the uterine lining that correspond with changes in the ovary. We will base our time line on a 28-day cycle, but the cycle is highly variable and in some women it is not a consistent length from one month to another. Since it is a cycle, we can begin with any phase. However, it is customary to call the first day of menstruation Day 1 of the menstrual cycle, because menstruation is visible and easy to document.
