To Build a Better World

Choices to End the Cold War and Create a Global Commonwealth *Twelve*

A deeply researched international history and "exemplary study" (New York Times Book Review) of how a divided world ended and our present world was fashioned, as the world drifts toward another great time of choosing. Two of America's leading scholar-diplomats, Philip Zelikow and Condoleezza Rice, have combed sources in several languages, interviewed leading figures, and drawn on their own firsthand experience to bring to life the choices that molded the contemporary world. Zeroing in on the key moments of decision, the might-have-beens, and the human beings working through them, they explore both what happened and what could have happened, to show how one world ended and another took form. Beginning in the late 1970s and carrying into the present, they focus on the momentous period between 1988 and 1992, when an entire world system changed, states broke apart, and societies were transformed. Such periods have always been accompanied by terrible wars -- but not this time. This is also a story of individuals coping with uncertainty. They voice their hopes and fears. They try out desperate improvisations and careful designs. These were leaders who grew up in a "postwar" world, who tried to fashion something better, more peaceful, more prosperous, than the damaged, divided world in which they had come of age. New problems are putting their choices, and the world they made, back on the operating table. It is time to recall not only why they made their choices, but also just how great nations can step up to great challenges. Timed for the thirtieth anniversary of the fall of the Berlin Wall, To Build a Better World is an authoritative depiction of contemporary statecraft. It lets readers in on the strategies and negotiations, nerve-racking risks, last-minute decisions, and deep deliberations behind the dramas that changed the face of Europe -- and the world -- forever.

Put Your Cards On the Table *Xlibris Corporation*

This is a history of my relationships from childhood, adolescence, and adulthood. As a black man in America, I was forced to take God and my world around me seriously because I came from a dysfunctional background. I was the youngest of six children of my absent biological father, who I felt did not care for the five black sons he created. My book deals with all factual encounters with reference to my understanding of my relationships. It is important for me to explain to the world that God had my back when I left my home at a tender age to attend this prestigious university. I had no family whatsoever in the Chocolate City, and I was only twenty going on twenty-one by myself. These are my memoirs, my history, and my experiences that God helped me write. I believe I can change the way we look at relationships because many black people in America come from dysfunctional backgrounds, such as a single-parent household. My mother was the father and mother to six children: five boys and one girl. God was clearly in this equation. My book will bring more people together with reference to their newfound relationships. The key to a successful relationship is getting to know a person first before anything else happens, such as sex. In short, there are no perfect persons on earth, and there is no Utopia on earth, so the person you meet may not be the person that is meant to be with you. There should always be a six-month dating period. My book expresses the importance of getting to know their baggage before you make a commitment. My book is the history of my relationships that God allowed me to experience to grow as a black man in America.

The Murder on the Links *Standard Ebooks*

The Murder on the Links is Agatha Christie's second Poirot novel, featuring the brilliant Belgian detective and his sidekick, Captain Hastings. In this characteristic whodunit, Poirot is summoned to a seaside town in northern France by a desperate letter from a rich businessman, who fears that he is being stalked. Poirot arrives to find the businessman already dead, his body lying facedown in an open grave on a golf course, a knife in his back—the victim of a mysterious murder. Over the coming days Poirot clashes wits with an arrogant Parisian detective, Giraud, while Hastings finds himself pining after a beautiful but shadowy American expatriate known to him only as “Cinderella.” Together, Poirot and Hastings unravel the intricate web of mystery and deceit behind the murder. Christie based this mystery after a real-life French murder case, and it's believed that this is the first detective novel to use the phrase “the scene of the crime.” This book is part of the Standard Ebooks project, which produces free public domain ebooks.

How Magicians Think

Misdirection, Deception, and Why Magic Matters *Workman Publishing*

The door to magic is closed, but it’s not locked. And now Joshua Jay, one of the world’s most accomplished magicians, not only opens that door but brings us inside to reveal the artistry and obsessiveness, esoteric history, and long-whispered-about traditions of a subject shrouded in mystery. And he goes one step further: Joshua Jay brings us right into the mind of a magician—how they develop their other worldly skills, conjure up illusions, and leave the rest of us slack jawed with delight time after time. Along the way, Jay reveals another kind of secret, one all readers will find meaningful even if they never aspire to perform sleight of hand: What does it take to follow your heart and achieve excellence? In 52 short, compulsively readable essays, Jay describes how he does it, whether it’s through the making of illusions, the psychology behind them, or the way technology influences the world of magic. He considers the aesthetics of performance, discusses contemporary masters, including David Copperfield, Penn & Teller, and David Blaine, and details how magicians hone their craft. And answers questions like: Can a magic trick be too good? How do you saw a person in half? Is there real magic in the universe? The answers, like so much in magic and life, depend on you.

Poirot

The Complete Ariadne Oliver *HarperCollins UK*

The final POIROT omnibus, featuring the last four appearances of the detective's side-kick, the sleuthing crime novelist Ariadne Oliver: Third Girl, Hallowe'en Party, Elephants Can Remember and The Pale Horse. Poirot and Mrs Oliver continue their sleuthing in the 1960s in four uncharacteristically 'modern' novels with an added twist of danger...Third Girl Poirot finally admits he is growing old as a perplexed girl thinks she may have killed someone. Here Christie dragged Poirot into the swinging 60s and effectively squared him up against a world featuring sex, drugs and hippies. Hallowe'en Party A teenage murder witness is drowned in a tub of apples. This was only the second time Christie wrote about the death of a child, and is all the more engrossing for it. Elephants Can Remember An old husband and wife double murder has never been solved -- until now. This was the very last Poirot story that Agatha Christie wrote, and garnered good reviews. The Pale Horse A priest's death leads to sinister goings-on in an old country inn. This bonus novel featured Mrs Oliver for once without Poirot and was one of Christie's darkest stories, blending witchcraft and murder.

His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk’s path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world’s largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world’s most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media.
