### **Continental O-470 - Wikipedia**

The O-470 is a rugged engine that's capable of producing solid and dependable power. It distinguishes itself from other six-cylinder carbureted engines by its characteristic lope at idle and throaty exhaust stack burp. When balanced, an O-470 will run at cruise power without the least bit of burble or vibration.

### **Continental's O-470 Series - AVweb**

You'll often hear pilots referring to the Continental® O-470 in reverent tones as "old reliable". Powering the majority of Cessna® 180 and fixed-gear 182 aircraft from 1953 through 1986, this workhorse of an engine embodies simplicity, efficiency and ruggedness. Its track record speaks louder than words - a true brawny powerplant. In fact, some versions make full power at a smooth, quiet 2400 rpm.
