Explorations In Personality

This book sets forth a provocative agenda for the scientific study of human personality. Blending no-nonsense empiricism with the humanistic desire to understand the whole person, the book is as relevant today as it was to its many readers seventy years ago. The book sets forth a full theory of human personality, illustrated with a bevy of creative methods for personality assessment, and presenting the results of a landmark study of fifty Harvard men.

Explorations in Personality, published by OUP in 1938, established an elaborate agenda for understanding our subjective human nature that is as relevant to students of personality psychology today as it was to its audience then. An antidote to the now fashionable strategy of representing a person as a dot on a scatter plot or burying the individual in an amalgam of statistics, it advocates 'whole person' research and bubbles with suggestions about how to perform such studies.
