A Truly Unique Design
Lots of people ask me where they can find the plans for a pulsejet engine -- but the problem is that virtually every set of pulsejet plans you'll find on the net (or waste money buying on eBay) assume that you have access to, and know how to use, expensive tools such as a lathe and welding gear of some kind.

How's it done? A lot of folks have asked me

just what's involved in building an engine like the PJ8C . so here's a bit of a step-by-step description with pictures. The body The first task is to cut the various pieces of metal from which the pulsejet body is formed.. In the case of the PJ8C, there are four separate sections to the engine and they're all cut from 0.5mm stainless steel sheet.
