Childcare Observations

Child Observation is the method of watching, listening, asking questions, documenting, and analyzing the observed words and actions of children as they interact with their surroundings and other people. Proper observation in childcare is crucial in helping educators and parents address the needs of early childhood development.

Child Observation | SafetyCulture

Use this selection of EYFS observation sheets for childminders and carers to

monitor things like mood, behaviour and the daily activities of children in your care. These observation sheets are ideal for reporting back to parents on their child's day or monitoring child development.

Childcare Observation Sheets - Childcare Resource - Twinkl

Observation in childcare settings is the method of watching, listening, documenting and analysing children as they explore, play and learn. Monitoring children's physical actions, expressions, gestures and behaviours, and listening to them talking and interacting with others will show how they are developing, their likes and dislikes and how they learn through their play and interactions.

The Importance of Observation in Childcare Settings ...

Observations: Give a factual, objective, detailed account of what the child says, does, and how the child behaves. Record the details of how the child moves, speaks and acts. Describe the tone of voice, facial expression and body language. Paint a picture in words of the child at that moment in time. Observing children is a skill.

Observation - Childcare

EYFS observations provide us with all the information we need in order to understand the interests of the children in our care. It also helps to produce a learning environment that offers them opportunities to thrive by planning the next steps in their development. Why

complete observations in early years?

How to Write a Good EYFS Observation - Twinkl

Your portfolio of Observations of Children should demonstrate a variety of different observation techniques and various ways to present your work. Observations of child development can be recorded in: written records to record details of what the child does and says, and more importantly how the child does and says things.

Observation Techniques - Childcare

Observing what children can do
Observation is referred to in several places in the revised Early Years Foundation Stage. Put simply observation is the practice of looking at

and listening to children to find out how they are developing, what they like doing and what they are learning through their play and the experiences on offer.

Observation, Assessment and Planning - Early Years Matters

Observations in the early years are a powerful tool to help you understand a child and their learning journey – but they shouldn't just be a paperwork burden. By taking a less-is-more attitude and focusing on fewer, but more insightful observations, you can actually use them to develop your practice.

How to Write Better Observations in The Early Years | Family

Observation is the key to understanding

young children as learners and a vital tool in finding out more about them as individuals. It is an integral part of the assessment and planning cycle and a firm basis for reflection.

Observing children | Nursery World

Using observations of children at play in your setting, evaluate how you would scaffold the children's learning in the future and improve the quality of play. Using a range of fully completed observations from placements (six in total), evaluate how you would improve the children's learning experiences.

Observation of Child Play -

UKEssays.com

According to Basics of Assessment: A Primer for Early Childhood Educators,

“Observation is a method of gathering information by systematically watching and noting what children do and say.” Observations are important in order to assess child development from infancy through preschool age 1. Physical, behavioral and cognitive assessment is critical to ensure children are meeting targeted goals and helps care-givers, early educators and parents meet the individual needs and address any ...

Types of Observations for Children in Daycare Centers ...

Observations are crucial for all in the early childhood settings. They ‘paint a picture’. Observation is an essential part of early years daily practice in all kinds of settings, including in the home. When caring for children it is important to keep

an eye on their development and the stages they are at.

Observations - Seriously Kids

Created by Aussie Childcare Network

One of the most important types of documentation methods that educators needs to be familiar with are “observations”. Observations are crucial for all early childhood settings and are used to build an understanding of a child’s skills, interests, abilities and focuses on what they can do.
