An analysis of Alvar Aalto's Säynätsalo Town Hall and its contribution to the advancement of Critical Regionalism. The design of Alvar Aalto's Säynätsalo Town Hall is generally regarded as a major transitional event in the Finnish architect's distinguished career, as his work moved away from the anonymous cubic typology of internationalism, to a more site-specific and humanistic approach incorporating the tectonic ideals of modernist form.

Abstract. We examine recurring patterns of discontinuity in the designs of the Finnish architect and designer Alvar Aalto (1898–1976). Discontinuity expresses an ambiguous duality of incompleteness (growth) and ruination (decay). We take examples from architecture, painting, sculpture, glassware, furniture, landscape and urban planning.
